Responses to Council Questions**

ITEM #5: Consider Approving Modifications to the Good Neighbor Plan

Council Question:

Can you describe community outreach efforts to share the proposed modifications and receive feedback from community members, including neighbors of the shelter?

Council Question:

Have neighbors been notified in revisions to the “good neighbor plan” and were any neighbors involved in the revisions?

IFC Staff Response:

IFC moved forward following the Orange County Partnership to End Homelessness report to the Town Council to recommend amending the GNP to meet national standards of a best practice, housing first shelter and did not believe that the changes proposed were substantial enough to necessitate additional resident outreach and engagement.
