

Affordable Housing Development Reserve

&

Affordable Housing Fund

Funding Application

Revised 12/2015

GENERAL INFORMATION & APPLICATION INSTRUCTIONS

OVERVIEW

Affordable Housing Fund (AHF):

In 2002, the Town Council established an Affordable Housing Fund (AHF) to preserve owner-occupied housing in Chapel Hill for affordable housing purposes. Since then, the eligible uses of the Affordable Housing Fund have expanded and include a variety of uses, such as land acquisition, renovation, homeownership assistance, new construction of affordable housing, and rental and utility assistance.

Funds are available through the AHF on a rolling basis, with applications being accepted at any time. Applicants are evaluated by the Town Manager, with Council approval required for requests for housing renovation or homeownership assistance in excess of \$40,000.

Affordable Housing Development Reserve (AHDR):

In fiscal year 14-15, the Town Council allocated over \$688,000 for affordable housing and approved an allocation strategy for this funding, establishing an Affordable Housing Development Reserve (AHDR).

The AHDR is dedicated exclusively to the development and preservation of affordable housing. Priority project areas are: 1) land bank and land acquisition, 2) rental subsidy and development, 3) homeownership development and assistance, and 4) future development planning. Priority is given to rental projects that serve households with incomes 60% and below the Area Median Income (AMI) and homeownership projects that serve households with incomes 80% and below the AMI.

AHDR applications are accepted three times per year (~ every 4 months). Applications are reviewed by the Housing Advisory Board and evaluated using a scoring rubric, which is available on the Town website. The Housing Advisory Board's recommendations for funding are then forwarded to the Town Council for final approval.

Please see **Attachment 1** for additional details about the AHF and AHDR.

INCOME ELIGIBILITY

In general, all projects for both the AHF and AHDR must benefit persons with a household income below 80% of the area median income adjusted for family size, though projects may be approved that serve households of higher incomes. Please see **Attachment 2** for current income limits.

PROJECT REPORTING AND MONITORING

Recipients of AHF and AHDR funds are required to submit written progress reports to the Town twice a year to monitor progress and performance, financial and administrative management, and compliance with the terms of the performance agreements. Reporting information may include: progress toward achieving performance goals, description of activities/challenges, and revisions of proposed project

timelines/budgets. Please submit bi-annual reports electronically to:
housingandcommunity@townofchapelhill.org.

Applicants are invited to attend an optional orientation session prior to applying for funding, which will be held periodically throughout the year in coordination with the application deadlines.

Applicants are also invited to participate in a pre-application meeting, which is a one-hour one-on-one session during which applicants can discuss their funding proposal with Town staff. Section 2: PROJECT DESCRIPTION

Please provide a thorough description of the project (by answering the “who,” “what,” “when,” and “where” questions about your project). **Do not assume the reader knows anything about the project.**

A. Project Name

1. Project Name. Town of Chapel Hill Future Development Planning

B. “Who”

1. Who is the target population to be served and how will their needs be addressed through this project? The target populations would be residents at 80% of the area median income (AMI) and below. It is anticipated most of the units would serve residents below 60% of AMI. Some of the sites may serve as relocation options for displaced manufactured home park residents, if needed. It is anticipated that 2200 Homestead Road will be a mixed-income community with some of the units serving residents above 80% AMI.

2. Please indicate the income of the beneficiaries (households) to be served through the proposed project. Please see **Attachment 2** for the current income limits for the Durham-Chapel Hill MSA.

The numbers listed below are for the development at 2200 Homestead Road. The number of expected beneficiaries is still to be determined for the other three parcels, but it is anticipated the breakdown would be similar but with less or no >80% AMI units.

Income Group (Area Median Income)	Number of Beneficiaries	% of Total Beneficiaries
<i><30% of the AMI</i>	48	33%
<i>31%-50% of AMI</i>	44	31%
<i>51-80% of AMI</i>	26	18%
<i>>80% of AMI</i>	26	18%
TOTAL	144	100%

3. **Project Staff.** Please provide names of staff, contractors, and/or volunteers that will be involved with the project. Describe their responsibilities with the project and track record in successful completion of similar projects in the past.

Nate Broman-Fulks, the Town’s Affordable Housing Manager, will be the project manager for these projects. Nate has expertise managing local government affordable housing efforts as the Affordable Housing Manager for the Town of Chapel Hill and previously managing the affordable housing efforts for the Town of Carrboro. This management experience includes development site identification and analysis, implementation of affordable housing strategic plans, creating and monitoring performance measurement systems and communication tools, and building community collaboration. Nate has a Bachelors in Political Science, and Masters Degrees in Public Administration and International Studies.

Loryn Clark, the Town’s Executive Director for the Office of Housing and Community will oversee these predevelopment efforts. Loryn brings over 20 years of affordable housing and planning experience to the project, including serving as Community Development Planner, Housing and Neighborhood Services Manager, Interim Assistant Planning Director and now the Executive Director for Housing and Community with the Town of Chapel Hill. Her experience has included, affordable housing policy and initiatives, community planning, and community development programs. Loryn has a Bachelor of City and Regional Planning from the University of Virginia and a Master of City and Regional Planning from UNC-Chapel Hill.

In addition to Town staff, it is anticipated a consulting team will be selected to assist in the engineering and design work around development planning for these parcels. The Town has already contracted with a consulting team for design and engineering services for the 2200 Homestead Road parcel and has the vision for that property in place. This consulting team has been made up of members from MHAworks, Coulter Jewell Thames, and Self-Help, Inc. The members of this team have extensive design, engineering, and affordable housing development experience in Chapel Hill. It is anticipated a similar team will be selected to assist in the predevelopment work on the remaining three parcels.

2. Project Description. Please provide a general overview of your project, including what you are planning to produce and how you are planning to carrying out the project.

The Town will be conducting future development planning for four sites of Town-owned land. Three of the parcels are in the early pre-development stages. The first site is located on Jay Street, the second on the corner of Bennett Road and Mr. Carmel Church Road, and the third is on Dogwood Acres and 15-501 (see attached maps). After an extensive site analysis effort to identify Town-owned sites suitable for affordable housing development, the Town Council prioritized these sites for that purpose in June 2018. Our next steps would be to further analyze the sites for their development potential and begin putting together a concept plan for developing the sites. This would likely involve working with a consulting team that can assist with the site engineering and design efforts and conducting engagement efforts in conjunction with Town staff to key stakeholder groups.

The other parcel of land at 2200 Homestead Road has completed initial design, engineering, and community input to create a vision for the development of the project. The Town is looking to further

that pre-development work to implement the vision already established. This will include creation of a development plan, identification of development partners through request for proposals and/or other means, defining income levels to be served, and refining the projected development financials.
