

## 12-01-2021 Town Council Meeting Responses to Council Questions

### **ITEM #8: Community Splash Pad Update**

**Council Question:**

Has the work group referred to on p. 582 been put together yet, or are community members being recruited for this? If so, what are the recruitment efforts to date?

**Staff Response:**

*During the summer, Mayor Hemminger appointed a work group comprised of Council Member Anderson; Parks, Greenways, and Recreation Commission members; and Parks and Recreation staff to explore options for establishing a splash pad. Since then, the individual who initiated the splash pad petition has joined the work group. There have not been additional recruitment efforts to date. As the project progresses and funding is allocated, staff will solicit public input through an extensive community engagement process*
