Responses to Council Questions**

ITEM #6: Adopt a Calendar of Council Meetings through December 2020

Council Question:

For the August meeting and first meeting of September, the resolution specifies that these meetings will be a virtual meeting. But other meetings after September 9th do not have that designation of “virtual meeting”. Given the likelihood that the pandemic will continue to persist in the fall, was there a reason these other meetings did not have the “virtual meeting” designation?

Staff Response:

The current Orange County Emergency Order is in place through the end of August. Extending the virtual meetings to the first regular meeting in September was done with the thought that by that point additional information would inform how far into the future to extend the virtual meetings. It also provided a clear expectation for the first September meeting in the absence of the potential expired Order.
