# Shaping Our Future

## A Complete Community Strategy

A Transportation and Land Use Initiative  
September 15th - 17th

[ChapelHillCompleteCommunity.org](http://ChapelHillCompleteCommunity.org)  
[chplan.us/ShapingOurFuture](http://chplan.us/ShapingOurFuture)

The Complete Community initiative is a follow-up to the 2021 Chapel Hill-UNC Housing Needs Assessment. Using a new community-based approach, this initiative will create a strategy for where and how to build new housing for an inclusive, sustainable, and economically competitive future.

The Shaping Our Future initiative is a follow-up to the 2020 planning effort that outlined the future development of selected Focus Area locations and a follow-up to the 2019 North-South Bus Rapid Transit (NS-BRT) Transit Oriented Development framework. The NS-BRT new high-capacity buses will connect North Chapel Hill to Downtown and Southern Village. With the Shaping Our Future initiative, we will evaluate sites in the Station and Focus areas that will see the most change between now and 2040.

How can the Town benefit from connections between neighborhoods, a mix of housing types, and planned Town investments that advance our community?

Hop on-board the conversation at the September 15th, 16th, & 17th Workshops!

### The Town's aim is to:

- Elevate all of Chapel Hill's voices, including those less engaged in the past.
- Create vibrant and walkable places.
- Link existing neighborhoods to transit, greenways, multi-modal paths, and more.
- Discuss how future changes will provide affordable homes, quality services, and jobs.

The Town of Chapel Hill wants YOU to shape our community.
