*UPDATE: Two names are removed as noted below. The CHPLAB reviewed the applications for Michael Delafield (recommended) and Meredith Graham, along with several others since removed. We were misaligned with the board's May meetings and didn't send the other four applications. The board meets quarterly, can't meet in the next week, and prefers the Council make the appointment to continue their work with a full board. They also request the Council honor the time the board spent considering the applications received and that other four applications be held over to the next appointment round for board recommendation and Council consideration. We will not archive these other applications on June 30.*

**The Council appointed Michael Delafield to the  
Chapel Hill Public Library Advisory Board.**
