Subject: Budget Information: Consultants

Attachments: Professional Services Detail - FY17 and FY18 YTD 20180518.xlsx

We have been asked on occasion by Council to provide a list of the Towns consultants. We have always responded to those requests from Council. While I do not have a specific request from Council at this time, we have revised our format for the FY 2017 & FY 2018 YTD professional services related expenditures. The revised spreadsheets report expenditures by vendor and contract/purchase order. We believe that this report is more visually appealing and provides a better data set for Council.

At the request of Council several years ago, we have also begun including the cost of consultants with agenda items when consultants are needed under the fiscal impact section of staff reports.

The first tab on the spreadsheet summarizes the data and the next two spreadsheets show the supporting detail for 2017 & 2018.

If you have questions, please let me know.
