Neighborhood Engagement

- Met with representatives of the Phi Mu Sorority to discuss our project and their concerns
- Prepared drawings at the sorority's request:
 - Cross-section representation down Rosemary St.
 - Cross-section through the building and Phi Mu
 - Shadow studies at multiple times of the year
- Visited sorority property on-site with sorority representatives to make observations and hear concerns
- Met a second time to discuss options
- Developed an Alternative buffer on our property
- Committed funding to Phi Mu to use at their discretion
 - For additional landscaping and vegetative screening on their property
 - For window treatments, shades, shutters, awnings, Etc.
 - For landscaping maintenance

Line of Sight Exhibit

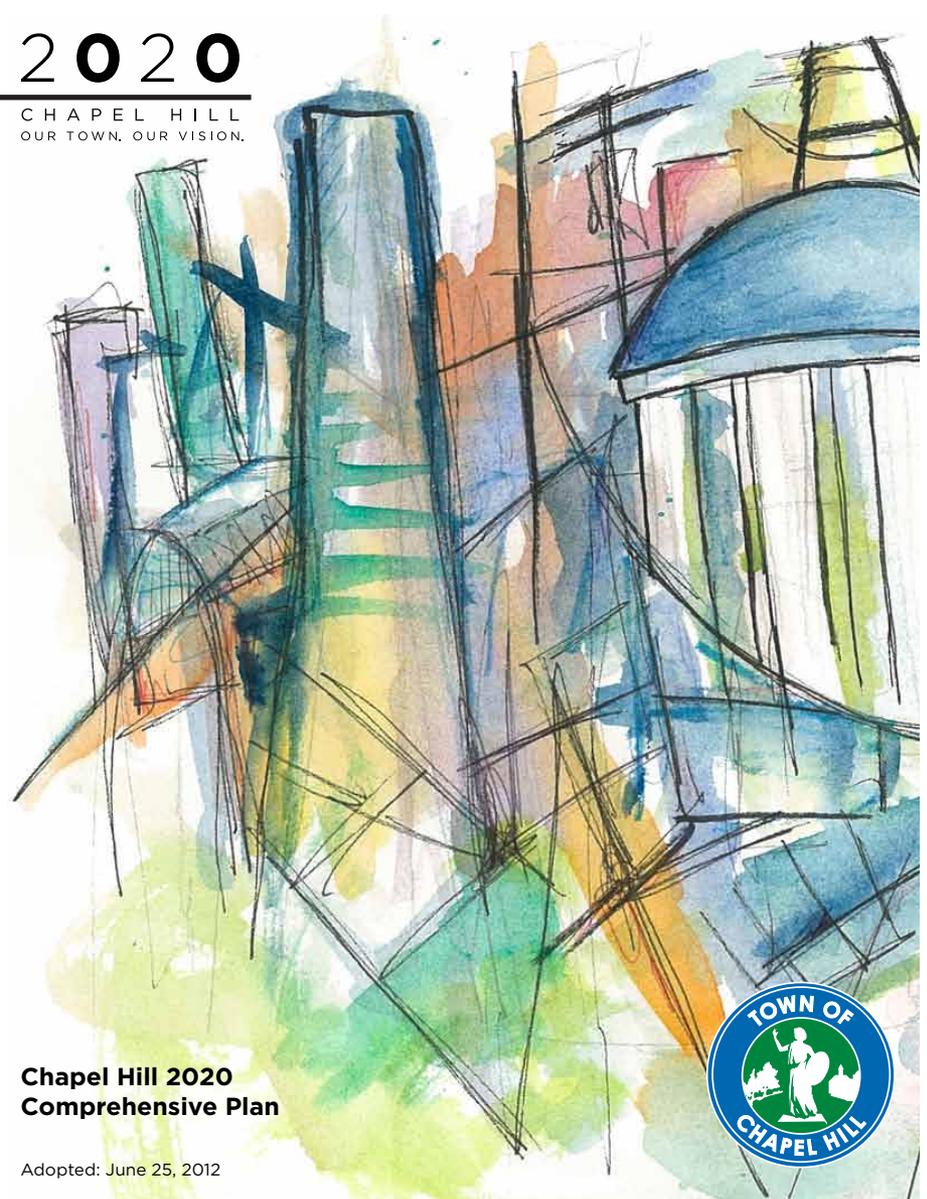

Chapel Hill Comprehensive Plan Objectives

- **A Place for Everyone**
- **Community Prosperity and Engagement**
- **Getting Around**
- **Good Places, New Spaces**
- **Nurturing our community**
- **Town Gown Collaboration**

2020

CHAPEL HILL
OUR TOWN. OUR VISION.

**Chapel Hill 2020
Comprehensive Plan**

Adopted: June 25, 2012

A Place for Everyone

- Affordable house units
- Restaurant / retail
- Public engagement on street frontage

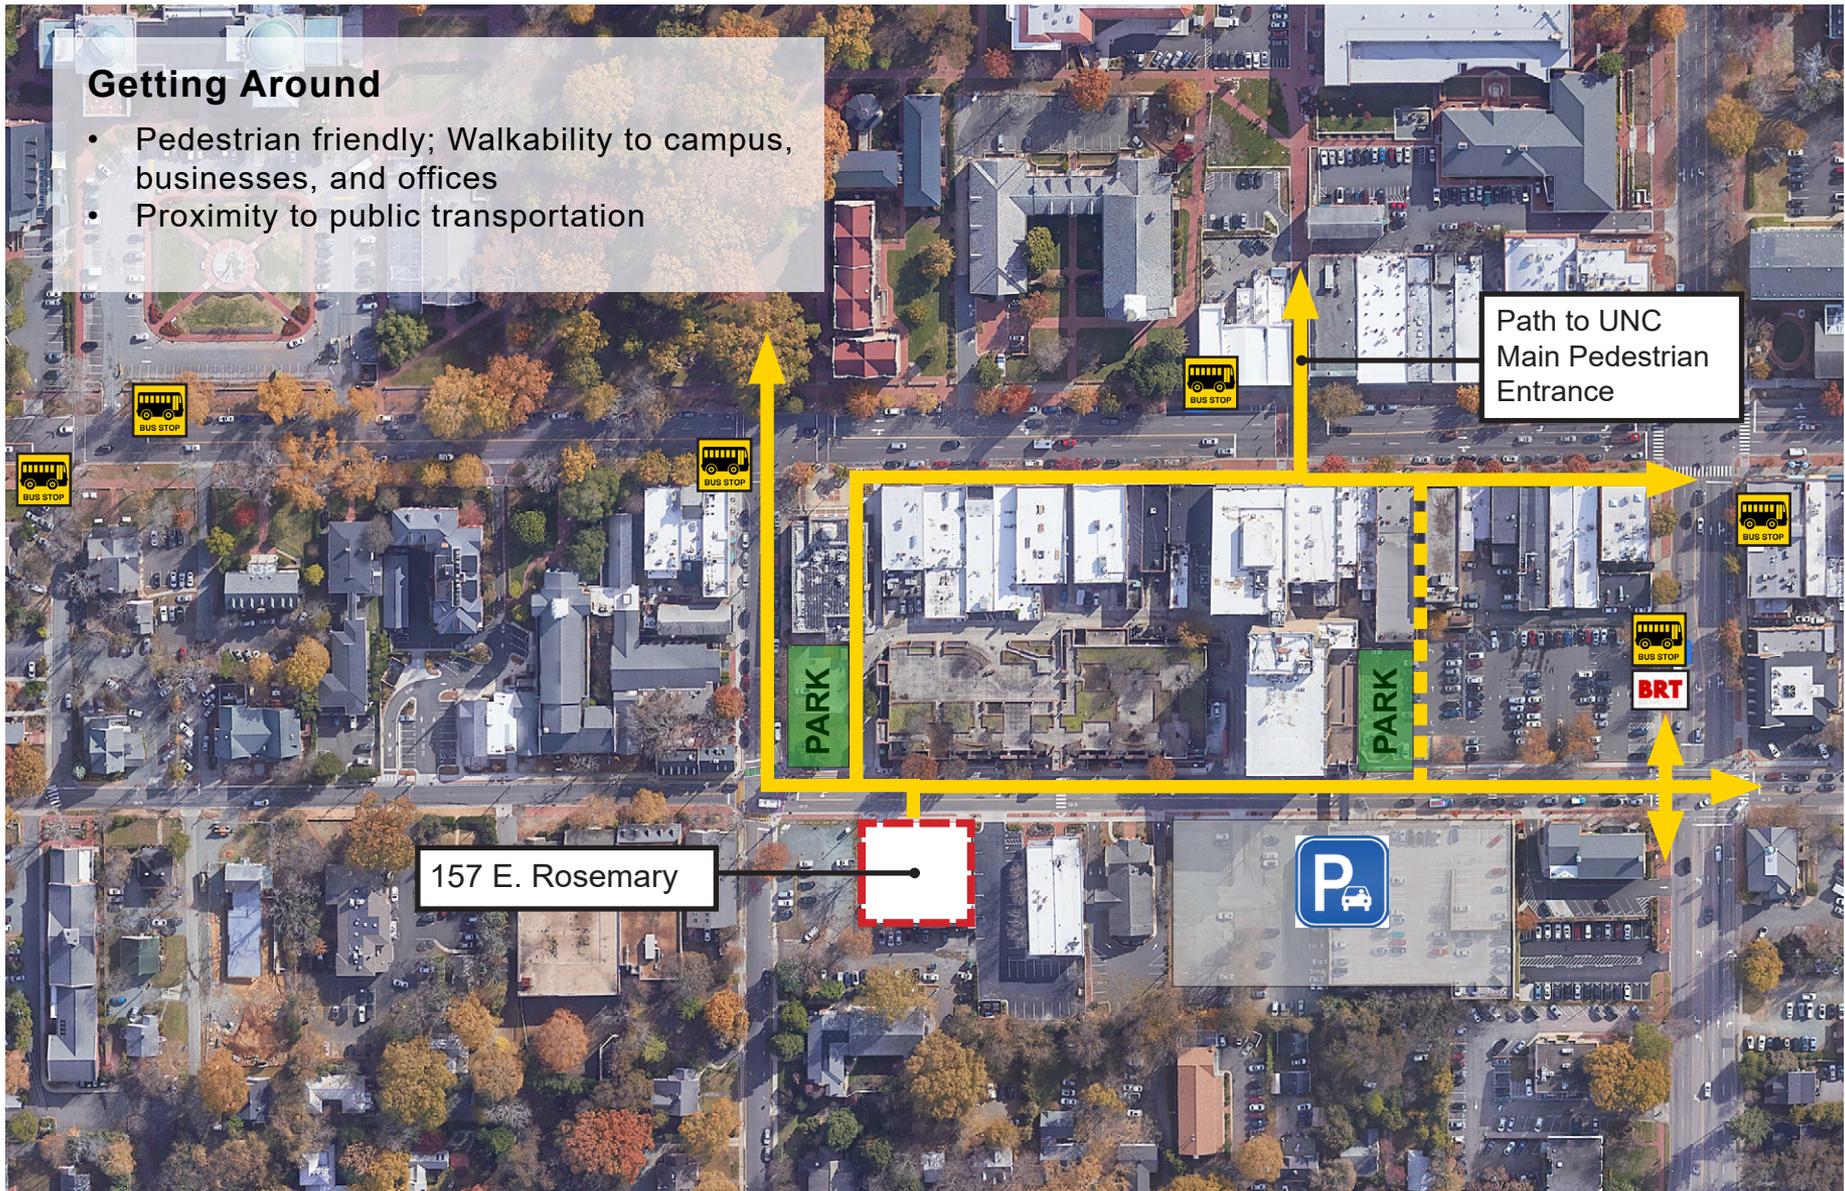

Community Prosperity and Engagement

- Expands tax base
- Fosters success of downtown businesses

Getting Around

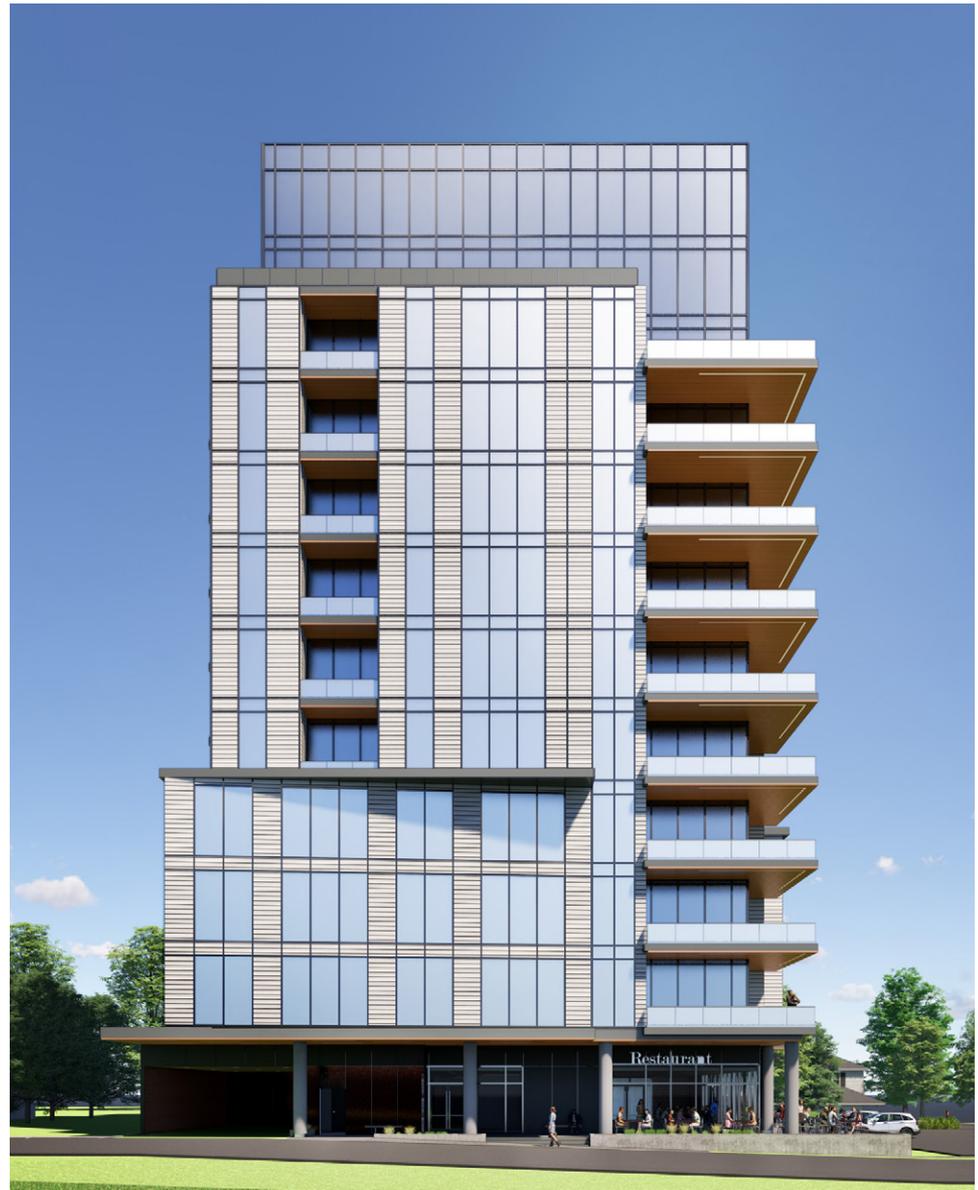

- Pedestrian friendly; Walkability to campus, businesses, and offices
- Proximity to public transportation

Nurturing our Community

Sustainability Summary:

- Central location of the property for residential use
 - Adjacency to transportation
 - walkability
 - Live, work, play: Surrounding Density and Diverse Uses
- Quality design and construction along with non-combustible materials
- Certification: Most likely LEED V4 (TBD)
- Water source heat pump as basis of mechanical system
- ERV's (Energy Recovery Ventilator) for central exhaust system
- All electric (with the exception of an option for a gas range in dwelling units)
- Two EV stations with infrastructure to support all 22 parking spaces with EVSE.
- One bike space per dwelling unit
- Use material with low VOC's: Environmental product declaration Requirements
- Water sense fixtures: Outdoor & indoor water use reduction
- Energy Star: Optimized Energy Performance with building
 - level Energy Metering
- Electric emergency power generation
- Dark sky lighting strategies: Light pollution reduction
- Reduced parking footprint
- Heat island reduction (reducing surface parking on site)
- Storage and collection of recyclables
- Building life – cycle impact reduction
- Enhanced indoor air quality strategies
- Construction activity pollution prevention
- Maximum use of quality views and daylight (to save energy used for lighting)

Good Places, New Spaces

- Vibrant, diverse, pedestrian-friendly, and accessible downtown
- Attractive and high-quality building
- A residential component to complement office and park (“live-work-play”)
