

03-06-2024 Town Council Meeting Responses to Council Questions

ITEM #7: Authorize the Town Manager to Formally Prepare a New Framework for Advisory Boards

Council Question: What is staff's planned schedule for holding a Council discussion on the role of our development review boards, and any changes to their charges/authority that might be contemplated as part of the LUMO rewrite?

Staff Response: *Once a broad structure is defined for Boards and Commissions, Planning staff will revisit the application of those best practices to boards that interact with the development review process. This is expected to be in line with inclusion in the LUMO Rewrite.*

Council Question: I'd like to see the surveys from the boards. Can we see that and any other background available?

Staff Response: *Staff will share background, context, and summary survey responses as part of the presentation on Wednesday.*

Council Question: Please explain how the process for re-organizing the boards, which are advisory to the council, will continue to include our interests?

Staff Response: *Staff will address this in the presentation and welcome Council comments on how else we might meet their interests.*
