

SAY NO to REROUTING EUBANKS RD. THROUGH NORTHWOOD

As part of the I-40 widening project, and projected increased traffic coming into Chapel Hill, the traffic flow patterns at the intersections of I-40, Eubanks Rd and MLK, JR Blvd need to be addressed. A current proposal (Plan 4A) reroutes Eubanks Rd through the Northwood neighborhood, destroying homes, threatening septic systems and the community well (the water supply for all 82 homes), harming the natural environment, and disrupting the tranquil lifestyle of our residential community.

We the undersigned, therefore, ask NC-DOT to ensure the final plan chosen to alleviate traffic in this area meet the following guidelines:

1. Will not destroy homes or devastate property values in Northwood or neighboring communities.

Any plan that demolishes homes directly and indirectly, substantially decreases market appeal and property values of home in the entire neighborhood, threatens the community well (the neighborhood's only water source), physically isolates homes from neighborhood in ways they were not previously, and/or jeopardizes nearby septic fields is not acceptable.

2. Will not threaten the fundamental infrastructure of well and septic systems

Any plan that locates roadways near our sole source of drinking water threatens the entire neighborhood. The addition of impervious surfaces and the removal of large area of mature trees directly adjacent to residential properties jeopardizes nearby septic systems. Any plan that eliminates those trees and their ability of to absorb stormwater, thereby increasing the likelihood of localized flooding and decreasing the performance of septic systems, is not viable.

3. Will not route additional traffic into or bring Eubanks Road through the residential Northwood neighborhood

Any plan that reroutes existing residential and commercial traffic through the Northwood neighborhood or routes Eubanks significantly increases noise and emission pollution from moving and idling vehicles and puts the pedestrians and cyclists who make regular use of our neighborhood for exercise at the heightened risk. Any plan that directs continually increasing traffic through our small residential neighborhood is untenable.

4. Will not radically alter the character of the Northwood residential home community.

Any plan that disrupts the connections between homes with the neighborhood or safe connection to commercial areas and art/dining/entertainment hubs, or that diminishes opportunities for healthy exercise and environmentally friendly modes of transportation is not acceptable.

Please join us in strongly urging NC-DOT to work with the Town of Chapel Hill, Orange County and the neighborhood to choose an alternative plan that does not destroy neighborhoods, yet still addresses the traffic needs of our communities.
