Laying the foundations: what we know

1. Development review is **not** delivering desired outcomes.
 2. Current processes are the primary **disincentive** to investment in Chapel Hill.
 3. **Efficiencies are required** to streamline processes and mitigate confusing iterations.
 4. **Role clarification is required.**
 5. An unclear process creates **an emotional toll** for everyone involved.
 6. The **time is right for change**: a key success factor for change is having a clear vision. The Complete Community Framework provides critical guidance.

The opportunity – what we heard

1. Eliminate Duplication

- i. Decisions are revisited by multiple parties
- ii. Expectations are not clear
- iii. Review is 'siloed'
- iv. Adjacent municipalities have better processes that are precedents (Asherville, Raleigh)

2. Better use staff expertise

- i. Staff are underutilized: facilitators vs experts
- ii. Generate responsibility for recommendations by defining their role more in keeping with professional expectations
- iii. Add clarity to where decisions are being made

3. Acknowledgement that there is no 'silver bullet'

- i. And yet the aspiration to do better exists
- ii. Find the low-hanging fruit: begin with process changes
- iii. Concern that even if 'processes' are fixed, people will still behave the same

How will change take place?

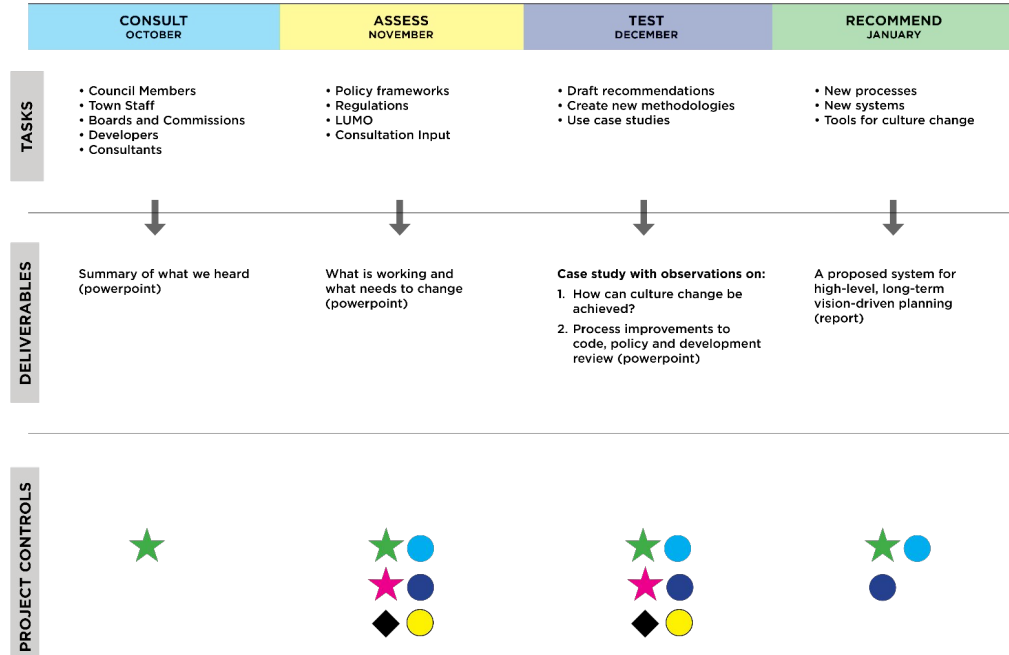

1. **Alignment with a vision is new: Complete Community Framework sets the stage for process change.**
 2. **Culture change requires clear roles – and for people to work within the bounds of their role.**
 3. **New Processes are a tool – but they will not deliver the outcome. People will.**
