

CLOSE THE HEARING AND CONSIDER AN APPLICATION FOR CONDITIONAL ZONING APPLICATION FOR GIMGHOUL CASTLE (PROJECT #21-044)

SUMMARY REPORT

TOWN OF CHAPEL HILL PLANNING DEPARTMENT

Colleen Willger, Director
 Judy Johnson, Assistant Director
 Anya Grahn, Principal Planner
 Charnika Harrell, Planner I

| PROPERTY ADDRESS | MEETING DATE | APPLICANT |
|-------------------|---------------|--|
| 742 Gimghoul Road | June 15, 2022 | John Bratton on behalf of Gimghoul Corporation |

TOWN MANAGER’S RECOMMENDATION

That the Council close the legislative hearing, receive the Town Manager’s recommendation, adopt Resolution A, the Resolution of Consistency and Reasonableness, and enact Revised Ordinance A, approving the Conditional Zoning application.

UPDATES SINCE THE MAY 19, 2022 LEGISLATIVE HEARING

Staff has worked with the applicant to revise Ordinance A, approving the Conditional Zoning application. The revisions are to the Standard Conditions of Approval and better reflect specific site conditions.

ZONING

Existing: Residential-1 (R-1)
 Proposed: Office/Institutional-1-Conditional Zoning District (OI-1-CZD) and Gimghoul Historic District

- Floor area: 6,255 sq. ft.
- Lot size: 103,234 sq. ft. (2.15 acres)

DECISION POINTS

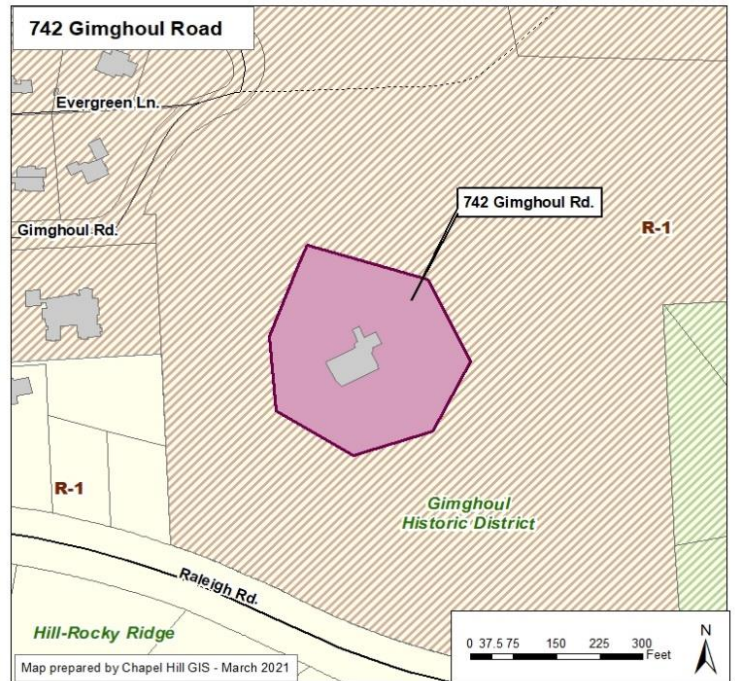

The proposed development requests a Modification to Regulations for the following:

- Landscape buffers
- Designated parking for motorcycles, mopeds, and bicycles

PROCESS

Conditional Zoning is a legislative process that allows Town Council to review the rezoning application for consistency with the Land Use Plan in the Comprehensive Plan and establish standards that address any impacts on surrounding properties.

PROJECT LOCATION

PROJECT OVERVIEW

The applicant proposes rezoning the property to allow for the expansion of the existing use. Gimghoul Castle, built in 1926, has been used by the Order of Gimghoul, a collegiate society founded in 1889. The castle is considered a club use, as defined by the Land Use Management Ordinance (LUMO).¹ The use of the castle is considered a legal nonconforming use and is not a permitted use in the Residential-1 (R-1) zoning district. This application would rezone the property to a zoning district with a club use as a permitted use.

The site includes the existing stone castle, a caretaker’s apartment within the castle, and gravel drives for off-street parking. The project consists of an addition on the rear of the castle for ADA compliant restroom facilities, the expansion of accessible terraces, and other site improvements like accessible ramps and sidewalks.

TECHNICAL REPORT

UPDATES SINCE THE MAY 18, 2022 HEARING

Since the May 18, 2022 Legislative Hearing, staff has worked with the applicant to simplify the Ordinance. The revisions to the Ordinance only provide clarity and are not substantive.

PROJECT OVERVIEW

- | | |
|------------------|--|
| April 13, 2021 | Historic District Commission reviewed and approved the Certificate of Appropriateness (COA) for the addition of ADA compliant restroom facilities and site improvements including ADA ramps, sidewalks, and expansion of terraces. |
| August 13, 2021 | Applicant submitted a Conditional Zoning District Permit application for the improvements. |
| October 12, 2021 | Historic District Commission reviewed the Concept Plan as part of the Conditional Zoning District Permit application process. |

The site is currently zoned Residential-1 (R-1), which does not permit a club use. The Order of the Gimghoul, a collegiate society founded in 1889, constructed the castle in 1926 prior to the Town's zoning districts. The site includes an accessory caretaker apartment as well as off-street parking.

The applicant proposes to rezone the property to Office/Institutional-1-Conditional Zoning District (OI-1-CZD) to make site improvements. Per [Land Use Management Ordinance \(LUMO\)² 7.3](#), no building structure devoted to a nonconforming use shall be enlarged, extended, or moved unless such building or structure is thereafter devoted to a conforming use. This application would rezone the property bringing the use into compliance.

Information about the site and proposed zoning districts can be found below, as well as a list of proposed Modifications to Regulations, other important considerations that staff has identified, and an analysis of the project's consistency with the Comprehensive Plan and relevant Findings of Fact.

SITE CONTEXT

Staff have identified the following physical and regulatory characteristics of the land which are relevant to consideration of a Zoning Atlas Amendment:

- The site is within Battle Park that abuts single-family residential uses all within the Residential-1 (R-1) zoning district.
- The site does not appear to have any hydrological features.
- The site is comprised of mostly wooded areas, and the proposed development would have minimal or no loss of tree canopy.
- The site has no street frontage and is accessed by a gravel drive off Gimghoul Rd. The drive is located in a private easement and passes through Battle Park.
- The castle has been continuously used by the Order of the Gimghoul since its construction in 1926. The site is listed on the National Register of Historic Places and is located within the Town’s Gimghoul Local Historic District.

PROPOSED ZONING

The applicant has submitted a Conditional Zoning application, which allows review of the development proposal in conjunction with the rezoning, and which allows site-specific standards to be formulated and applied as conditions through a legislative process. The Conditional Zoning application provides an opportunity to establish conditions that modify use, intensity, and development standards to address impacts reasonably expected to be generated by development. Conditions can also address conformance of the development with town regulations and adopted plans. A –CZD suffix would be added to the zoning district designation to incorporate the approved conditions. The applicant has proposed a Conditional Zoning district for the site, as shown on the site plan: Office/Institutional-1-Conditional Zoning District (OI-1-CZD).

- The intent of the Office/Institutional-1 (OI-1) zoning district is “to provide for low-intensity office and institutional development and, where appropriate, to serve as a transition between residential zoning districts and high-intensity nonresidential zoning districts”.³

PROPOSED MODIFICATIONS TO REGULATIONS

- 1) Section 5.6 Landscaping, screening, and buffering:** The applicant proposes to maintain the existing buffer provided by the wooded areas on site that extend into Battle Park. The applicant does not propose to add new shrubs and trees to their existing buffers.

| Buffer | Required | Proposed |
|-----------------|----------------------|----------------------------------|
| Northern Buffer | Type B 10 ft. buffer | Maintain existing forested areas |
| Eastern Buffer | Type B 10 ft. buffer | Maintain existing forested areas |
| Wester Buffer | Type B 10 ft. buffer | Maintain existing forested areas |
| Southern Buffer | Type B 10 ft. buffer | Maintain existing forested areas |

Staff Comment: Landscape buffers are intended to separate proposed development from different adjacent land uses or zoning designations to minimize potential nuisances, reduce the visual impact of unsightly aspects of adjacent development, provide separation of spaces, and establish a sense of privacy. Existing vegetation can be used to satisfy some or all of the required buffer plantings. Where existing vegetation is

³https://library.municode.com/nc/chapel_hill/codes/code_of_ordinances?nodeId=CO_APXALOUSMA_ART3ZODIU_SDIST_3.3CODI

retained, the Engineering Design Manual requires that supplemental plantings of evergreen shrubs along buffer edges be planted in order to meet the planting requirements for shrubs.

Staff finds that the existing buffers should be maintained. Staff has incorporated the following condition of approval to address this:

#4. Landscape Buffers: The existing vegetation within the Type B 10-foot buffers shall remain undisturbed or the developer shall provide a landscape buffer that complies with the Engineering Design Standards. Only hand clearing of the invasive species within the buffers is permitted.

Staff believes the Council could find a public purpose for maintaining the existing vegetated areas as the proposed buffers to meet the intent of reducing the visual impact of unsightly aspects of adjacent development, providing separation of spaces, and establishing a sense of privacy.

- 2) Section 5.9.5 Parking Design Standards:** Parking facilities designed to accommodate five (5) or more vehicles require designated parking for motorcycles, mopeds, and bicycles. The applicant does not propose any designated parking spaces for these uses as they can share the existing on-site vehicular spaces.

Staff Comment: Staff believes the Council could find a public purpose for eliminating the need for designated motorcycle, moped, or bicycle parking as these types of vehicles can share the already limited number of parking spaces provided on-site. Requiring additional parking spaces to accommodate these types of vehicles would increase impervious surface and cause further disturbance to sensitive areas, such as the steep slopes, or wooded areas.

Council Findings and Public Purpose: The Council has the ability to modify the regulations according to Section 4.5.6 of the Land Use Management Ordinance. Staff believes that the Council could modify the regulations if it makes a finding in this particular case that public purposes are satisfied to an equivalent or greater degree. If the Council chooses to deny a request for modifications to regulations, the developer's alternative is to revise the proposal to comply with the regulations.

For additional information on the proposed modifications and other considerations on timing and flexibility, please refer to the applicant's attached materials.

KEY CONSIDERATIONS

1. Historic District Commission (HDC): At the April 12, 2022, meeting, the HDC recommended approval of Ordinance A as proposed. One Commissioner was interested in requiring a wider buffer strip, consistent with the amount of tree canopy coverage that currently exists on site. The applicant did not consent to this as they do not intend to modify the existing wooded conditions except to remove those trees necessary to accommodate the new addition.
2. Environmental Stewardship Advisory Board (ESAB): At the April 14, 2022 meeting, the ESAB recommended approval of Ordinance A as proposed.
3. Transportation and Connectivity Advisory Board (TCAB): At the April 26, 2022 meeting, the TCAB recommended approval of Ordinance A as proposed.
4. Planning Commission: At the May 1, 2022 meeting, the Planning Commission recommended approval of Ordinance A as proposed.

CONSISTENCY WITH THE COMPREHENSIVE PLAN AND OTHER DOCUMENTS

Town staff has reviewed this application for compliance with the themes from the [2020 Comprehensive Plan](#)⁴, the standards of the [Land Use Management Ordinance](#)⁵, and the [Town of Chapel Hill, NC : Design Manual and Standard Details](#)⁶ and believes the Gimghoul Castle proposal complies with several themes of the 2020 Comprehensive Plan:

| 2050 FUTURE LAND USE MAP (FLUM) ELEMENTS | | |
|--|-------------------------------|--------------|
| FOCUS AREA & SUB-AREA | APPROPRIATE USES | OTHER |
| None – outside Focus Areas | Small-scale commercial/office | None |
| OTHER APPLICABLE ADOPTED SMALL AREA PLANS | | |
| None | | |

North Carolina General Statute 160D-605 requires the Town Council to consider a statement of Plan consistency when reviewing any Zoning Atlas Amendment. Staff provides the following evaluation of this application's consistency with the 2050 Future Land Use Map and other adopted components of the Chapel Hill 2020 Comprehensive Plan:

| | Description of Plan Element | Staff Evaluation |
|---------------------------------|--|---|
| Future Land Use Category | <p>The Future Land Use Map (FLUM) designates this site for Commercial Office. This category encompasses a wide range of businesses, including retail/restaurant establishments, institutions, services, medical/health services, auxiliary hospitals, and office. Development patterns are intended to support existing or planned residential uses with access to major transportation/multi-modal corridors and activated pedestrian-friendly gathering spaces are preferred, such as sidewalk cafes and plazas. Off-street parking behind buildings further supports pedestrian activity.</p> <p>The site is outside of the Focus Areas. The land use guidance provided has been carried forward from the 2020 Land Use Plan.</p> | <p>The proposed rezoning is consistent with the character envisioned by the FLUM because the proposed zoning district allows business offices, clubs, and institutional uses.</p> <p>The applicant has proposed zoning conditions that further limit the scale of the development such that the Commercial Office area will only be used for the club use to minimize impacts to surrounding residential neighborhoods.</p> |
| Building Height | The FLUM does not provide height guidance outside of the Focus Areas. | |

⁴ <http://www.townofchapelhill.org/home/showdocument?id=15001>

⁵ https://www.municode.com/library/#!/nc/chapel_hill/codes/code_of_ordinances?nodeId=CO_APXALAUSMA

⁶ <http://www.townofchapelhill.org/town-hall/departments-services/public-works/engineering/design-manual-and-standard-details>

| | | |
|---|---|--|
| <p>Mobility And Connectivity</p> | <p>The Mobility and Connectivity Plan does not propose any bicycle or pedestrian facilities that would impact this site.</p> <p>The Castle’s gravel driveway connects to Gimghoul Road, which has sidewalk on both sides. Natural surface pathways also connect the site to Greenwood Road to the east.</p> | <p>The surrounding area has some elements of a multimodal network. The proposed zoning change will not increase traffic to the site.</p> |
| <p>Chapel Hill 2020 Goals</p> | <p>Opportunities for this application to support goals of Chapel Hill 2020 include:</p> <ul style="list-style-type: none"> • Providing a range of neighborhood types that addresses residential, commercial, social, and cultural needs and uses while building and evolving Chapel Hill’s character for residents, visitors, and students. The Order of the Gimghoul have maintained the castle as the headquarters of their club since 1926, growing up alongside the residential Gimghoul and Greenwood neighborhoods. These uses have coexisted for nearly a century and the construction of an addition to the castle supports the preservation of the structure and its continued use by the Order. This aligns with the theme of <i>Good Places, New Spaces</i>. • Maintain natural open spaces in order to protect wildlife corridors, provide recreation, and promote stewardship of the community’s past. The Gimghoul castle is setback at least 80 ft. from its property lines and the site is wooded, protecting the adjacent Gimghoul and Greenwood neighborhoods from any light and noise pollution or traffic generated by this site. This aligns with the theme of <i>Nurturing our Community</i>. | |

REASONABLENESS OF THE ZONING ATLAS AMENDMENT

Reasonableness is determined by comparing the scale of permissible development under the proposed zoning district to the scale permitted under existing zoning, and by considering characteristics of the site and its surroundings. North Carolina General Statute 160D-605 requires the Town Council to consider a statement of reasonableness when reviewing any Zoning Atlas Amendment.

The analysis below considers the applicant’s proposed zoning district and overall proposed use program. Specific characteristics of the development proposal, compliance with regulations, and appropriate conditions to address potential impacts of the development are evaluated elsewhere.

| |
|---|
| <p>SUMMARY OF ANALYSIS FOR REASONABLENESS</p> |
| <p><u>Supporting Factors</u></p> <ul style="list-style-type: none"> • The Gimghoul Castle remains largely unchanged, both in use and form, since its construction in 1926. The site includes a gravel parking area, caretaker’s apartment, and the castle. The club use is an existing non-conforming use, and the rezoning is necessary to allow the Order of the Gimghoul to modernize the historic castle with a new addition. • The current zoning allows only residential uses, which does not permit the use of a club. • Rezoning to accommodate the use of a club may be considered reasonable as no change of use is proposed. |

- Permitting the continued use of a club in this location aligns with multiple themes of Chapel Hill 2020.
- Some available transit service and pedestrian facilities nearby suggests that continuation of the existing club use, with a small expansion, is reasonable.
- Zoning conditions are an inherent part of the proposed zoning district. Conditions provide an opportunity to limit intensity and to establish standards that address any impacts on surrounding properties.

APPLICANT PROPOSAL

| | | |
|--|---|---|
| Project Description | The applicant proposes to construct an addition to the historic Gimghoul Castle, thus expanding the square footage of the club use. | |
| Proposed Zoning Atlas Amendment (ZAA) | From Residential-1 (R-1) to Office/Institutional-1-Conditional Zoning District (OI-1-CZD) | Notes: The submittal of a Conditional Zoning application allows review of the development proposal in conjunction with the rezoning and allows site-specific standards to be formulated and applied as conditions through a legislative process. |
| Applicant Reasoning for ZAA | To eliminate the non-conformity of the existing use under the site's zoning. | |

Comparing Proposed Permissible Development to Existing

The application to rezone the property from Residential-1 (R-1) to Office/Institutional-1-Conditional Zoning District (OI-1-CZD) is sought to permit the expansion of the existing nonconforming club use. The Order of the Gimghoul constructed the historic castle in 1926, prior to the Town's adoption of zoning districts. The Order has continuously used this site for their club uses since that time, and the construction of an addition enables the continued use of a historic building. Apart from the new addition, the Order proposes minimal changes to the site in order to conserve the existing vegetation and maintain the rural, forested appearance of a castle in the woods. The addition is intended to make the Castle more useable to its members, not to increase the membership and intensity of use at the site.

The OI-1-CZD zoning district allows for uses such as low-intensity office, institutional uses, as well as residential development that serve as a transition between residential zoning districts and high-intensity nonresidential zoning districts. This site is surrounded by UNC-maintained forested land located between the historic Gimghoul neighborhood to the west and the Greenwood neighborhood to the east. The Gimghoul Historic District is zoned Residential-1 (R-1) and Greenwood Residential-Low Density 1 (R-LD1); both neighborhoods encourage low-density single-family developments. Further, the local Gimghoul Historic District designation ensures that changes within this neighborhood preserve its special character, including the mass and scale of its development. The proposed rezoning memorializes the use of the site for a club and the expansion does not intend to generate additional impacts to neighboring residents.

| | LUMO Standard for R-SS-CZD | Staff Evaluation |
|------------------------------|---|---|
| District Intent | <p>Section 3.4.5: The Office/Institutional-1-Conditional Zoning District (OI-1-CZD) is available only through a conditional zoning application and creates a parallel conditional zoning district that largely reflects the intent of the OI-1 zoning with some modifications. The intent of this zone is to allow low-intensity office and institutional development.</p> | <p>The proposed rezoning is consistent with the character envisioned by the FLUM because the proposed zoning district allows residential uses.</p> |
| Permitted Uses | <p>Table 3.7-1: Permitted uses in OI-1-CZD include office-type businesses, clubs, university uses, single and multifamily residential, essential services, institutional uses, nonprofit recreation facilities, research activities, and tourist homes.</p> | <p>The associated Conditional Zoning application proposes a club use, which is a permitted use in the OI-1 zoning district.</p> <p>Through the Conditional Zoning District application, the applicant plans to memorialize and limit the use of this property to the club use, with an accessory use of the caretakers' apartment.</p> |
| Dimensional Standards | <p>Table 3.8-1: Standards for OI-1 district include:</p> <ul style="list-style-type: none"> • Maximum Residential Density of 10 units per acre • Maximum Building Height of 29 ft at the setback line and 60 ft at the site core • Minimum Street Setback of 24 ft. • Minimum Interior Setback of 8 ft. and Solar Setback of 11 ft. <p>Maximum Floor Area Ratio of 0.264.</p> | <p>The associated Conditional Zoning application proposes:</p> <ul style="list-style-type: none"> • 1 accessory dwelling units, resulting in a Residential Density of .46 units/acre • Maximum Building Height of 34 ft at the setback line and 60 ft at the site core (The majority of the castle is less than 34 ft. tall with the historic castle tower reaching about 55 ft. in height.) • No Street Frontage. Access is from a private drive. • 97 ft. Interior Setback; 108 ft. Solar Setback • 6,255 sq ft, resulting in a Floor Area Ratio of 0.061 <p>The existing R-1 zoning has the following standards:</p> <ul style="list-style-type: none"> • Maximum Residential Density Of 3.0 units/acre • Maximum Building Height of 28 ft at the setback line and 40 ft at the site core • Minimum Street Setback of 28 ft • Maximum Floor Area Ratio of 0.076 |

| | | |
|---|--|---|
| Dimensional Standards (cont'd) | | Based on the comparison of the existing R-1 zoning to the proposed OI-1-CZD, only the height of the historic castle tower exceeds what is permitted in adjacent residential zoning districts. |
| Design and Development Standards | | |
| <p>Other standards (including landscape buffers, parking spaces, stormwater treatment, etc.) are established in LUMO Article 5 and are applicable to both the OI-1-CZD and R-4 districts. A change in zoning district would not change how Article 5 standards apply.</p> <p>The Conditional Zoning application provides an opportunity to establish conditions that modify development standards in order to address impacts reasonably expected to be generated by development.</p> | | |

Consideration of the Site and its Surroundings

| | Description | Staff Evaluation |
|--|---|--|
| Existing Use and Surroundings | <p>Historic 1926 castle that includes a caretaker's apartment and on-site parking.</p> <p>Located between the Gimghoul Historic District and Greenwood neighborhood and surrounded open space owned by the University</p> | Rezoning a developed site to support and accommodate redevelopment and establish conformity of the existing use may be considered reasonable. |
| Adjacent Zoning Districts and Land Uses | <p>Surrounding the property: R-1, University-owned open space</p> <p><u>Adjacent and to the West:</u> R-1, single family homes within the Gimghoul Historic District</p> <p><u>Adjacent to the East:</u> R-LD1, single family homes in the Greenwood neighborhood</p> | <p>OI-1-CZD is intended to serve as a transition between residential zoning districts and high-intensity nonresidential zoning districts. In this case, it is sought to memorialize the site's use as a club, as it has been used by the Order of the Gimghoul since 1926.</p> <p>The surrounding area has been developed with various low density residential uses. Zoning conditions would be useful to ensure limited changes to the existing site.</p> |
| Transit Service | <p>The site is within 0.5 miles of a bus stop on South Road, adjacent to the School of Government. This bus stop is served by the FCZ, B, CCx, 800, and 805 bus lines.</p> <p>The site is also within 0.4 miles of the Raleigh Road at Greenwood</p> | No changes are proposed to access the site and the addition does not intend to increase the intensity of the use at the site. |

| | | |
|--|---|--|
| | Road bus stop. This bus stop is served by the A, N, S, and Safe Ride G bus lines. | |
| Roads and Vehicular Access | Access to the site is from Gimghoul Road, which is classified as a local street (not a collector or arterial). Access is through an adjacent property, and the site does not have any direct street frontage. | Limited access is provided from a minor street. |
| Pedestrian & Bike Facilities (existing) | Gimghoul Road has sidewalks on two sides. Alternatively, pedestrians can take the path through Battle Park that connects to Greenwood Road. | The surrounding area has some elements of a multimodal network. Zoning conditions may be warranted to ensure adequate pedestrian connectivity. |
| Streams/ Wetlands/ Floodplain | No floodplain impacts the site. | The slopes and stream corridor are likely significant limitations on development suitability for portions of the site outside the existing development footprint. |
| Topography | The site slopes down significantly from northwest to southeast. Steep slope areas are greatest at the back of the castle, extending downhill to the Greenwood neighborhood. | Existing Town and State regulations (RCD, Steep Slopes) include measures for protecting environmental features. Zoning conditions may be useful for enhanced protection, if warranted by further environmental analysis. |

FINDINGS OF FACT

Staff provides the following evaluation of the application under the three Findings of Fact identified in LUMO Section 4.4. LUMO states that the Zoning Atlas shall not be amended unless at least one of the Findings are made.

| | |
|--|--|
| FINDING #1: The proposed zoning amendment is necessary to correct a manifest error. | |
| Arguments | Staff finds that this property has not changed use since 1926, yet it has been zoned residential throughout its history. The new zoning memorializes the existing use of the property. |
| Staff Evaluation | The Council could make the finding that the proposed zoning amendment is necessary to correct a manifest error. |

| | |
|--|---|
| FINDING #2: The proposed zoning amendment is necessary because of changed or changing conditions in a particular area or in the jurisdiction generally. | |
| Arguments | To date, no arguments in opposition have been submitted or identified by staff. |
| Staff Evaluation | This area, and the surrounding Gimghoul and Greenwood neighborhoods have experienced little change since their development. |

| | |
|--|--|
| FINDING #3: The proposed zoning amendment is necessary to achieve the purposes of the comprehensive plan. | |
| Arguments | <p>Staff notes that the Conditional Zoning application could contribute to the purposes of the Comprehensive Plan through the following:</p> <ul style="list-style-type: none"> • Maintaining development that implements the Land Use Category designated on the Future Land Use Map, which permits Commercial Office type uses at this location • Supporting goals of Chapel Hill 2020 including <i>Good Places-New Spaces</i>, and <i>Nurturing Our Community</i>. <p>To date, no arguments in opposition have been submitted or identified by staff.</p> |
| Staff Evaluation | The Council could make the finding that the proposed zoning amendment is necessary to achieve the purposes of the Comprehensive Plan. |

Further information may be presented for the Council’s consideration as part of the legislative hearing process. All information submitted at the legislative hearing will be included in the record of the hearing.

PROJECT FACT SHEET

Overview

| Site Description | |
|--|--|
| Project Name | Gimghoul Castle |
| Address | 742 Gimghoul Road |
| Property Size (GLA) | 103,234 sq. ft. (2.3 acres) |
| Project Area | 18,500 sq. ft. (0.4 acres) |
| Existing | Existing stone castle containing a caretaker's apartment and gravel parking area |
| Orange County Parcel Identifier Numbers | 9788-96-2765 |
| Existing Zoning | Residential-1 (R-1) |
| Proposed Zoning | Office/Institutional-1 Conditional Zoning District (OI-1-CZD) |
