

### Petition for Traffic Calming Measures

I ask the Town Council to take steps to implement additional traffic calming measures on the stretch of Mt. Carmel Church Road from Bennett Road to 15-501, including in particular reduction of the speed limit from 35 mph to 25 mph or less, and also to consider other measures including the construction of speed tables, installation of traffic cameras, posting of police, and any other measures the Council may find to be necessary in the interest of safety.

*traffic calming*
