I-40 Widening

[\[TMP-1366\]](#)

The Board decided to add an agenda item to discuss the proposed I-40 widening, as interested members of the public were present. Corey Liles, staff, gave an overview of the proposed options for widening I-40. Residents of the Northwood neighborhood spoke about the need to address concerns such as noise abatement, traffic calming, tree protection, sequencing lights, interaction with the future Bus Rapid Transit.

A motion was made by Brutz, seconded by Vice-Chair Kjemtrup-Lovelace, to make the following recommendation: The Transportation and Connectivity Advisory Board is strongly opposed to the plan proposed in Map 4A of the I-40 widening project. We recommend that Council only approve a plan for widening I-40 if it minimizes impacts to the surrounding neighborhoods, includes meaningful accommodations for bicyclists and pedestrians, harmonizes with the imminent BRT project, and creates a gateway to Chapel Hill that is welcoming to all visitors and residents. The motion carried by a unanimous vote.

**2. Homestead Road Transportation Discussion**

[\[19-0052\]](#)

The Board reviewed citizen petitions regarding Homestead Road and Staff's plans to advertise for a consulting firm to analyze the Town's Traffic Impact Analysis. The Board expressed a desire that the Request for Qualifications specifically address the multi-modal aspects of transportation modeling.

A motion was made by Brutz, seconded by Neebe, to make a recommendation that the Town develop a multimodal town-wide traffic model that includes bicycle, pedestrian, and transit use in order to better plan for all future transportation needs when making permitting and zoning decisions. The motion carried by a unanimous vote.
