Responses to Council Questions

ITEM #8: Adopt a Revised Meeting Schedule to Hold Special Meetings in a Virtual Environment through May 31, 2020 or Until the Orange County Stay At Home Order is Lifted

Council Question:

For the public comment, will there be any associated time limits for speakers, and should this be part of the resolution?

Staff Response:

The normal time limits for the Council (and advisory boards) should apply in the virtual environment in the same way it does in the physical environment. The Mayor (and Chair) clearly establish the expectation as a part of the public comment period, which should meet any variable needs. Including a specific time limit within the resolution may add complexity and less flexibility for any given meeting.
