

**PROCEDURE**

Section 4.12.2 of the Land Use Management Ordinance addresses variances from dimensional regulations. In order to grant the variances, the Board of Adjustment must make the following findings:

“A. When unnecessary hardships would result from carrying out the strict letter of a zoning ordinance, the board of adjustment shall have the power to vary or modify any of the regulations or provisions of the ordinance upon a showing of all of the following:

1. Unnecessary hardship would result from the strict application of the ordinance. It shall not be necessary to demonstrate that, in the absence of the variance, no reasonable use can be made of the property.
2. The hardship results from conditions that are peculiar to the property, such as location, size, or topography. Hardships resulting from personal circumstances, as well as hardships resulting from conditions that are common to the neighborhood or the general public, may not be the basis for granting a variance.
3. The hardship did not result from actions taken by the applicants or the property owner. The act of purchasing property with knowledge that circumstances exist that may justify the granting of a variance shall not be regarded as a self-created hardship.
4. The requested variance is consistent with the spirit, purpose, and intent of the ordinance, such that public safety is secured, and substantial justice is achieved.”

If the Board is able to make all the above findings for the requested dimensional variance, based on the evidence presented at the hearing, the Board may approve the variance request for the subject lot. If the Board fails to make one or more of the above findings, the Board must deny the request.
