Responses to Council Questions

ITEM #11: Review of Pilot Process for Receiving and Considering Requests from Non-Profits for Capital Funding

Council Question: Has feedback been obtained from any non-profits to gauge their feedback on the pilot program?

Staff Response: *Since this is a new idea, we wanted to gauge the Council's interest before reaching out to other stakeholders. Non-profits did provide input on the new Human Services Application on which this pilot is based.*

Council Question: Since this advisory board has a great deal of experience in reviewing funding requests for various organizations and initiatives, has feedback been obtained from the Human Services Advisory Board on this proposed pilot program?

Staff Response: *We will share the application with the Human Services Advisory Board at its meeting scheduled for March 5th and will share their feedback.*
