C. Application Type (check all boxes that apply)				
☐ Minor Work Exterior works that do not involve any substantial alterations, and do not involve additions or removals that could impair the integrity of the property and/or the district as a whole. See Design Guidelines (p. 69) for a list of minor works.				
☑ Historic District Commission Review Includes all e	exterior changes to structures and features other than minor works			
\square Site-work only (walkways, fencing, walls, etc.)	\square After-the-fact application (for unauthorized work already performed).			
☐ Restoration or alteration	☐ Demolition or moving of a site feature.			
⊠ New construction or additions	☐ Request for review of new application after previous denial			
□Sign				

D. Basic information about size, scale, and lot placement.

Provide measurements in feet and square feet where applicable. Where possible, please provide accurate measurements from a licensed surveyor, architect, engineer, etc. If exact measurements are not available, please provide estimated information. Current estimated information about lots and buildings can be found on the Ocupy Real Estate Data website. Information about lot placement can be found on the Chapel Hill and Orange County Interactive GIS portals.

E: Applicable Design Guidelines

The Town's <u>Design Guidelines for the Chapel Hill Historic Districts</u> are integral to the application and review process. These guidelines supplement the required review criteria for Certificate of Appropriateness applications (provided in <u>Section 3.6.2(e)(4)</u> of the Land Use Management Ordinance) by providing detailed, practical considerations for how to make changes to properties while preserving the special character of their Historic District context. Please review the Design Guidelines and consider their applicability to your proposed project. (Attach additional sheets, as necessary.)

Section/Page	Topic	Brief description of the applicable aspect of your proposal
PG. 2	Intro / Intent	"The majority of the houses in the district are bungalows and houses built in the nationally popular twentieth-century styles such as Colonial Revival, Craftsman, and Tudor Revival." The proposed design is a Craftsman / Bungalow 1.75-story dwelling.
PG.53	New Construction	#1 "Site new buildings to be consistent with neighboring historic buildings in orientation to and setback from the street as well as in spacing between and distance from other buildings" 412 dwelling's front façade faces W Patterson as do most of the neighboring historic buildings. The average front (street) setback on the North side of W Patterson is 15.02ft and the South side is 27.64ft. Our dwelling sits 16'-5" back from the front (street) setback. This is consistent with the street average. It also complies ensures no interference with the OWASA easement.
u u	шш	#2 "Design and site a new building so it does not compromise the overall historic character of the site, including its topography, significant site features and distinctive views." The existing site is an empty lot that has never had development. Proposed 412 is positioned to the front of the lot to ensure minimal impact to the existing topography. The building will also help hide the larger home development on Cameron Glen Dr, allowing the Bungalow charm to stay within the street.
u u	шш	#3 "Design new buildings so that their size and scale do not visually overpower neighboring historic buildings" #5 "Design new buildings so that the proportions of their street façade is similar with those of neighboring historic buildings.' The neighborhood consists of (5) 1 stories, (3) 1.5 stories, (4) 1.75 stories and (1) 2 story dwellings. The floor ratio ranges from .1334. The heights of the buildings on the street range from: grade to porch eave: 9ft-14ft, grade to dormer eave: 17ft-22ft, and grade to ridge each: 15ft-29ft. Proposed 412 is a 1.75 story dwelling. The floor land ratio is .33. The heights are as follows: grade to porch eave:11'-6", grade to dormer eave:

		19'-10" and grade to ridge:27'-10". This indicates the proposed dwelling falls within the averages of heights, land ratio, and number of floors.
		#4 "Design new buildings to be compatible in roof form, massing, and overall proportion with neighboring historic buildings."
u u	66 66	46% of the houses consist of a main cross gable with dormer(s). 53% of the houses have their main roof structure start / connect directly to the front porch columns. The roof pitches throughout the neighborhood consist of approx. 5/12, 6/12 and 9/12.
		Proposed 412 has a cross gable roof that starts at a 9/12 pitch from the front porch columns. The rear changes to a 6/12 pitch, along with the wing hip roof to the East. As far as heights; see comments in box above.
		#6 "Design new buildings and their features to be compatible in scale, materials, proportions and details with neighboring historic buildings. Select exterior surfaces materials that are compatible with those of neighboring historic building in terms of module, composition, texture, pattern, color, and detail"
α α	и и	Similar to neighboring buildings, proposed 412 utilizes 2-over-2 double hung windows, lap siding, brick column bases with tapered craftsman columns, window trim with historic sills and header drip caps, water table trim with drip caps, exposed rafter tails, 3-tab asphalt shingles as well as wood decking boards on the front covered porch.
		#7 "Design a new building so that the placement, shape, scale, size, materials, pattern and proportion of the window and door openings are compatible with the windows and doors of neighboring historic buildings"
u u	и и	100% of the houses have double hung windows trimmed out with flat stock 1x with a historic sill and drip cap. 61% have gang windows (2-3) on the front façade. 60% of the houses with a central upper level dormer have triple window on the single dormer.
		Proposed 412 utilizes 2-over-2 double hung window trimmed out with 1x6 on the sides and head, a historic sill and drip cap mounding on the head. Doors will also be trimmed out the same. The central from dormer has a triple window. The front has a triple gang window staying consistent with the majority of the front facades. The sizes of the openings are designed to be proportionally consistent with the surrounding buildings.
PG. 19	Parking	#7 "In residential sections of the district, it is not appropriate to locate offstreet parking areas in locations that are visible from the street, where the paving will abut the principal building, or where the paved area will substantially alter the proportion of the site that is paved verses landscaped."
		Parking is provided for the 412 dwelling to the East of the dwelling parallel to the neighbor's driveway (offstreet).

F. Checklist of Application Materials					
Attach the required elements in the order indicated.	то ве	PLETED		COMPLE OWN STA	
	YES	N/A	YES	N/A	NO
1. Written description of physical changes proposed. Describe clearly and in detail the physical changes you are proposing to make. Identify the materials to be used (siding, windows, trim, roofing, pavements, decking, fencing, light fixtures, etc.), specify their dimensions, and provide names of manufacturers, model numbers, and specifications where applicable.	\boxtimes				
2. History, context, and character information. Please include a summary of what information you have relied on to understand the relevant character and history of the district and subject property—and briefly summarize that information. At a minimum, include:	\boxtimes				
 Current property information for the lot and all structures, including Building Sketches and Building Details, from <u>Orange County Real Estate</u> <u>Data</u>. 					
The entry of your property on the most recent inventory of historic resources in the relevant National Register for Historic Places filing, available via the NC State Historic Preservation Office website: for McCauley-Cameron see West Chapel Hill , for Franklin-Rosemary see Chapel Hill Hill, for Franklin-Rosemary see Chapel Hill , for Gimghoul see Gimghoul . (If yours is one of the few properties in McCauley-Cameron or Franklin-Rosemary that has not yet been inventoried, please indicate that.)					
3. Justification of appropriateness. Attach an annotated statement explaining how the proposed change(s) meets the following standards of appropriateness that the Commission considers in making findings of fact indicating the extent to which the application is or is not congruous with the historic aspects of the historic district. If a standard is not applicable, type "not applicable".	\boxtimes				
A. The height of the building in relation to the average height of the nearest adjacent and opposite buildings.B. The setback and placement on lot of the building in relation to the average setback and placement of the nearest adjacent and opposite buildings.					
 C. Exterior construction materials, including texture and pattern. D. Architectural detailing, such as lintels, cornices, brick bond, and foundation materials. E. Roof shapes, forms, and materials. F. Proportion, shape, positioning and location, pattern, and size of any elements of fenestration. 					
G. General form and proportions of buildings and structures.H. Appurtenant fixtures and other features such as lighting.I. Structural conditions and soundness.					

J. Architectural scale.				
4. Photographs of existing conditions are required. Minimum image size 4" x 6" as printed or the digital equivalent. Maximum 2 images per page.	\boxtimes			
5. Site Plan Set showing existing and proposed conditions. (Min. scale: 1 in. = 20 ft.)				
Site plans must show the relationships between, and dimensions of, existing and proposed buildings, additions, sidewalks, walls, fences, driveways, and/or other structures on the property, as well as property lines and applicable zoning setbacks.				
Include both written and drawn scales and show accurate measurements. You may also use a copy of a survey with surveyor's seal deleted. Revise the copy as needed to show existing conditions and your proposed work.				
Indicate the area of all structural footprints (existing and proposed) in square feet; also, indicate lot size in square feet.				
6. Elevation Drawings showing existing structural facades and proposed changes. Drawings should be submitted as 11" x 17" or 8-1/2" x 11" reductions of full-size drawings. All details should be reasonably legible. Photographs are okay for facades with no changes.				
☑ Elevation drawings showing all proposed changes above current grade from front, back, and both sides.				
Include scale bar, written scale, and label major dimensions (including width of structures and heights from finished grade to fascia/eaves and heights to top of roofs).				
oxtimes Label materials to be used (roofing, siding, windows, trim, light fixtures, etc.)				
7. Information about context (required for all construction of new structures, proposed impervious surfaces greater than 1500 SF, additions greater than 150 SF, and/or proposed land disturbance greater than 5000 SF.) Detailed information about lots and structures can be found on the Orange County Real Estate Data website; information about lot placement can be found on the Chapel Hill and Orange County GIS portals.				
For each of the nearest adjacent and opposite properties, provide:				
\square The height of each building (if an estimate, indicate that).				
☐ The setbacks and lots placement of each building (an image from the Town GIS database, including scale, is sufficient).				
\square The size of each lot (net land area in square feet).				
☐ The size of all buildings on the nearest adjacent and opposite properties, including building footprint areas, Floor Areas (in square feet), and Floor Area Ratios. Provide current figures from Orange County Real Estate Data ; indicate any corrections for accuracy you believe necessary and your basis for doing so.				
8. Demolition/Relocation Information (required only if demolition or relocation of a feature is proposed).		\boxtimes		

 Provide a written description of architectural features, additions, remodeling, and any alterations to the structure(s). Make note of any outbuildings on the site plan of the property. 			
☐ Provide a history of the structure, giving the construction date and architect or carpenter, briefly noting any significant events, persons and/or families associated with the property. Provide current exterior photographs of the property (4" x 6" as printed or the digital equivalent). If information is unknown, please provide a summary of sources consulted.			
 If an argument about structural soundness is being made, attach a signed and sealed report from a professional engineer. 			
As necessary, attach a statement explaining how a delay in demolition would cause the property owner to suffer extreme hardship or be permanently deprived of all beneficial use or return from such property by virtue of the delay.			
$\hfill \square$ Provide any records about the structure to be demolished.			
9. Mailing notification fee per <u>Planning & Sustainability Fee Schedule</u> . For a list of addresses, please refer to the Town's <u>Development Notification Tool</u> .			
10. Certificate of Appropriateness fee per Planning & Sustainability Fee Schedule	×

G: Applicant signature

I hereby certify that I am authorized to submit this application; that all information is correct to the best of my knowledge, and all work will comply with the State Building Code and all other applicable State and local laws, ordinances, and regulations.

I acknowledge and agree that the Historic District Commission members, Town employees, and Town agents may enter, solely in performance of their official duties and only at reasonable times, upon the applicant's property for examination or survey thereof pursuant to North Carolina General Statute 160A-400.8. However, no member, employee, or agent of the Historic District Commission may enter any private building or structure without the express consent of the owner or occupant thereof.

I understand and agree that an approved Certificate of Appropriateness is valid only for the particular application, plans, specifications and related project details presented to, and approved by, the Historic District Commission. If any of the data contained in this application, any plans or any specifications presented to the Commission are changed or altered for any reason, including, but not limited to, changes or alternations deemed practically necessary during construction, required due to subsequent Town reviews, or otherwise, a new hearing before the Historic District may be required. By signing below, the applicant agrees to notify the Development Services Center of any changes or alternations in the data contained in this application, the approved plans or the approved specifications related to the project that is the subject of this application.

Hearings on Certificate of Appropriateness applications before the Commission are quasi-judicial proceedings. Therefore, Historic District Commission members are not permitted to discuss a pending application with the applicant or other party. By signing below, the applicant agrees to refrain from speaking with or contacting any member of the Historic District Commission about an application outside of the formal evidentiary hearing on the application.

Certificate of Appropriateness Supplemental Requirements

*In addition to Residential Zoning OR Administrative Zoning Compliance Permit Requirements

Certificate of Appropriateness applications are subject to review and approval by the Historic District Commission as well as by Town staff. For assistance with this application, please contact the Chapel Hill Planning Department.

Please submit *all* **materials listed** <u>on this sheet</u>. The Historic District Commission meets on the second Tuesday of each month at 6:30 pm. For confirmation of a meeting date and the placement of your request on the agenda, please call the Planning Department. **Applications are due one month in advance of meeting.**

Application Process:

- 1. Historic District Commission Review of Certificate of Appropriateness (COA) Supplemental materials
- 2. Staff review of Residential / Administrative Zoning Compliance Permit (ZCP) materials

**COA (step 1) and ZCP (step 2) materials may be submitted simultaneously or separately.

Required Application Materials

(In addition to Residential Zoning Compliance Permit or Administrative Zoning Compliance Permit Requirements)

An Electronic copy of each document is required in addition to paper copies.

Provide a single set of the following materials:

X	1. Application Form. Either Residential Zoning Compliance or Administrative Zoning Compliance.
X	2. Recorded plat or deed verifying property's current ownership
X	3. Recorded plat of easements, right-of-way, and dedications, if applicable
X	4. Mailing List of Property Owners, applicable within 100 feet of property boundaries
	The Town will prepare a formal notice to be mailed to surrounding property owners about the application. You may find it helpful to discuss the proposed changes with your neighbors in person so you can address their concerns both in your planning and presentation.
X	5. Mailing notification fee. The fee per address can be found on the <u>Planning Department's Fee Schedule</u> .
X	6. Certificate of Appropriateness fee per Planning Department's Fee Schedule
	7. Reduced Site Plan Set (reduced to 8.5" x 11")
X	8. Building Elevations (label building height from top of roof to finished grade line)
N/A	9. Floor Plan, only if accessory apartment, duplex, or commercial application.
	-

10. Written Description

Describe all proposed changes to the property, list all materials to be used, and address the criteria (listed below) that the Commission uses to determine appropriateness. Presenting your proposal with these criteria in mind will provide a clear basis for the Commission's deliberations.

- The height of the building in relation to the average height of the nearest adjacent and opposite buildings;
- b) The setback and placement of the building on the lot in relation to the average setback and placement of the nearest adjacent and opposite buildings;
- c) The exterior construction materials, including textures and patterns;
- d) The architectural detailing such as lintels, cornices, brick bond, and foundation materials;
- e) The roof shape, form, and materials;
- f) The proportion, shape, location, pattern, and size of any elements of fenestration (windows, doors);
- g) The general form and proportion of the buildings;
- h) The accessory fixture and other features (including lighting fixtures, hardware, awnings, etc.);
- i) The architectural scale in relation to existing structures and surrounding buildings; and
- j) Structural conditions and soundness.

Provide photographs of existing property and elevation drawings of the proposed changes. Depict changes in as much detail as possible, paying special attention to those features which the Commission uses to determine appropriateness. This section of the application allows the Commission to see the current state of the property, to visualize the proposed changes, and to assess the impact. The visual description must include dimensions. For new buildings and major additions, the visual description must include the interior floor plan.

Χ

11. Information Regarding Surrounding Properties

For new construction or large projects, the applicant is required to provide information on:

- The height of the nearest adjacent and opposite buildings;
- The setback and placement of the nearest adjacent and opposite buildings;
- The scale of the nearest adjacent and opposite buildings, including percentage of lot coverage.

n/a

12. **Demolition Information (if applicable)**

Provide a description of architectural features, additions, remodeling, and any alterations to the structure(s). Make note of any outbuildings on the site plan of the property. Provide a history of the structure, giving the construction date and architect or carpenter, briefly noting any significant events, persons, and/or families associate with the property.

412 WEST PATTERSON PLACE LOT #3
CHAPEL HILL, NC 27516
CERTIFICATE OF APPROPRIATENESS: NEW CONSTRUCTION

DESCRIPTION OF PHYSICAL CHANGES PROPOSED:

1. <u>NEW CONSTRUCTION ON EMPTY LOT</u> – The owner is proposing a new craftsman / bungalow style dwelling on empty lot 412 W Patterson Place. The proposed side-gabled dwelling has a footprint that covers 18.8% of the lot and complies to all the required setbacks and regulations of zoning district R-3. The placement of the dwelling is important to ensure it stays consistent with the surround neighboring setbacks as well as stays above the extreme on-site grading drop off.

The design blends into the surrounding context by utilizing craftsman / bungalow style elements such as simulated historical windows, doors, siding, roofing and the noticeable exterior detailing. The windows will be the energy-efficient version of the historical two-over-two SDL white doublehungs manufactured by Sierra Pacific. The front exterior door within the front covered porch – craftsman style door with flanking sidelights. The exterior door to the rear deck will be cottage style, with a two-over-one SDL pattern that aligns to the pattern of the surrounding windows. Siding will be James Hardie hardieplank wood grain lap siding, which most closely matches the existing neighborhoods aesthetics / character. Roofing will be comparable to the Owens Corning Supreme estate gray 3-tab asphalt roofing shingles with exposed rafter tails across the front. The covered front porch has wood decking boards with beadboard ceiling finish. Exterior trim is constructed out of composite 1x6 for the corner boards, door and window surrounds. The doors and windows will have a traditional drip cap moulding on the head with historical window sills. The wrap around water table trim is a 1x8 composite trim band with traditional drip cap moulding.

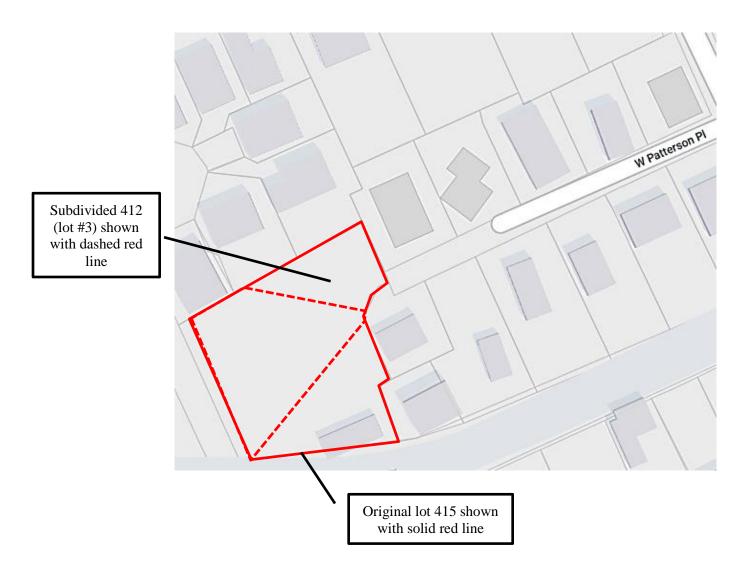

180 Providence Road, Suite 8 Chapel Hill, North Carolina 27514 (919)493-0528 | www.shawdesign.us

412 WEST PATTERSON PLACE LOT #3 CHAPEL HILL, NC 27516 CERTIFICATE OF APPROPRIATENESS: NEW CONSTRUCTION

HISTORY INFORMATION:

1. The original property, 415 W. Patterson Pl. (.71 acres) was subdivided into 3 parcels on September 21, 2018 and recorded in PB 119, pg. 52. This property, lot #3, consist of .15 acres of un-constructed virgin soils.

One-story frame bungalow with side-gabled roof, interior chimney and large gabled dormer.

97a. 1915-1925 one-story front-gabled frame garage

98. 409 Patterson Place 1915-1925

One-story frame dwelling with hipped roof, oversized hipped dormer, interior chimney and engaged porch.

98a. 1915-1925 one-story front-gabled frame garage

West side 300 Block Pittsboro Street

99. 302 Pittsboro St. c. 1913 Junius Webb House

This large extensively remodeled Colonial Revival two-story four-square house with hipped roof, full dormers and wrapped porch, contains many later additions, but its original outlines remain visible. The house was built by Junius D. Webb, a Chapel Hill businessman who, with Herbert Lloyd, built the Webb-Lloyd commercial block ca. 1900 (home of the Carolina Coffee Shop) during the first reconstruction of the Franklin Street commercial section. Webb was responsible for moving the bits of the house of the first president of the University from its site at the intersection of Cameron Avenue and Columbia Street, making way for the present Swain Hall. The house now serves as a sorority house.

100. 308 Pittsboro St. 1925-1932

Two-story frame house with one-story side wing. Colonial Revival style features include asymmetrical facade, paired, six-over-six sash windows, exterior end-chimney and porticoed, central entry.

113. 309 Ransom St.

1925-1932

One-story bungalow with side-gabled roof, oversized shed dormer and shed-roofed front porch.

113a. 1950 one-story side-gabled frame secondary house

NC-age

West side 300 Block Ransom Street

114. 302 Ransom St.

post 1960

NC-age

Two-story brick apartment building.

115. 306 Ransom St.

1925-1932

One-story frame Colonial Revival-style dwelling with side-gabled roof, interior chimney and symmetrical facade. The lot is bounded by a picket fence.

116. 308 ½ Ransom St.

1932-1948

One-story frame house of minimal traditional-style with side-gabled roof, front-facing cross-gable and exterior end-chimney.

180 Providence Road, Suite 8 Chapel Hill, North Carolina 27514 (919)493-0528 | www.shawdesign.us

412 WEST PATTERSON PLACE LOT #3 CHAPEL HILL, NC 27516 CERTIFICATE OF APPROPRIATENESS: NEW CONSTRUCTION

JUSTIFICATION OF APPROPRIATENESS:

A. Height of building:

"Design new buildings so that their size and scale do not visually overpower neighboring historic buildings" – (Design Guidelines pg. 53 # 3)

"Design new buildings so that the proportion of their street façade is similar with those of neighboring historic buildings" – (Design Guidelines pg. 53 # 5)

Measurements were recorded from the street facing elevation:

412- To Front Porch eave: 11'-6"-- Upper dormer eave: 19'-10" -- Ridge: 27'-10"

Neighboring dwelling heights as follows:

413 - Street facing eave: 16'-10" -- Ridge: 23'-8"

409 – Front Porch eave: 14'-0" – Upper dormer eave: 18'-2"

401 - Front Porch eave: 10'-8" - Upper dormer eave: 21'-6" - Ridge: 27'-10"

B. Setback and placement on lot:

"Site new buildings to be consistent with neighboring historic buildings in orientation to and setback from the street as well as in spacing between and distance from other buildings" - (Design Guidelines pg. 52 # 1)

The proposed dwelling complies to all required setbacks to zoning district R-3. The North side of W Patterson Place has an average setback of 15.02ft from street property line. The South side of W Patterson Place has an average setback of 27.64 ft from street property line.

The street setback proposed for Lot 412 is 16'-5", which is consistent to the neighboring building setbacks of the North side of W Patterson Place.

C. <u>Exterior construction materials</u>: The proposed dwelling will match (in kind) to the existing surrounding historical roofs, windows, doors, siding, and roofing in terms of physical appearance.

Element	Material used	Neighbors with alike materials
Roofing	3-tab asphalt shingle GAF	210,401,402,403,406,408,413,415
Windows	2/2 SDL doublehung Sierra Pacific	409 & 410

180 Providence Road, Suite 8 Chapel Hill, North Carolina 27514 (919)493-0528 | www.shawdesign.us

Siding	Lap Siding wood grain James Hardie	Lap Siding:401,403,408,409,410
Wood	Painted wood brackets in gable	210,402,403,406,407,408
Brackets		
Brick	Brick base columns with craftsman	All but 411,413,415
Columns	column on Front Porch	
Rafter tails	Exposed wood rafter tails on front	407 & 408

D. Architectural detailing: To uphold the craftsman / bungalow style inspired exterior, key architectural details include: three-over-one windows with a historical sill and 5 ½" trim surround with a traditional drip cap. Doors have 5 ½" trim surround with a traditional drip cap. Corner boards to be 6". Water table to be 7 ¼" with traditional drip cap. Large overhangs supported by painted wood brackets. Front porch to have exposed rafter tails. Front elevation exposed foundation to have brick veneer as the sides and rear will have painted exposed foundation, like adjacent property 413.

E. Roof shapes, forms, and materials:

"Design new buildings to be compatible in roof form, massing, and overall proportion with the neighboring historic buildings" (Design Guidelines pg. 52 #4)

Staying relevant to the surrounding context, the main roofline runs perpendicular to the street (side-gabled) with a shed dormer centered on the upper level. The front facing roof starts on the covered porch columns at a 9/12 pitch as the rear changes to a 6/12 pitch. All finished roofing will be 3-tab asphalt shingles. Properties that have the same roof configuration and dormer are address numbers: 402,403,407, 409 and 401 (this has two dormers)

F. Elements of fenestration:

"Design a new building so that the placement, shape, scale, size, materials, pattern and proportion of the window and door openings are compatible with the windows and doors of neighboring historic buildings" - (Design Guidelines pg. 53 # 7)

The windows that are being proposed, are to be a mixture of two-over-two – see attached elevations. The windows will be energy-efficient versions of the historical two-over-two doublehungs. Window sizes were selected to comply to today's safety codes while remain comparable in scale and proportion to the surrounding dwellings.

180 Providence Road, Suite 8 Chapel Hill, North Carolina 27514 (919)493-0528 | www.shawdesign.us

The exterior doors; front door to be craftsman style with flanking sidelites and the rear glass exterior doors to be cottage style two-over-one (allows the doors to aesthetically compliment the flanking windows).

G. Form and proportions of buildings and structures: Keeping the overall design simple, the proposed front elevation is aesthetically symmetrical and visually balanced across the center line of the dwelling.

"Design new buildings that are compatible with but subtly discernible from historic buildings in the districts."

- (Design Guidelines pg. 53 # 8)

The design begins with a simple "box" with a focus to the Main Level in the front with the engaging front covered porch. The second floor is only represented by the centered hip dormer (similar to 409). The historic aesthetic of the neighborhood focuses at the entry and front porch as the second floor is visually pushed towards the rear of the property.

"...it is important to limit any excavation, regrading, or ground disturbance and to protect significant site features, so they are not damaged or destroyed."

- (Design Guidelines pg. 54)

Land disturbance and grading will be minimal and kept to the Southeast of the lot to maintain the existing topography as it drops off significantly to the west.

H. Appurtenant fixtures and features:

"It is not appropriate to introduce period lighting fixtures in an attempt to create a false historical appearance" – (Design Guidelines pg. 23)

The front entry light fixture will be surface-mounted in the beadboard ceiling. The fixture will be subtle, so it will not stand out and compete with the engaging front porch, like the surrounding dwellings.
