ZONING AMENDMENT FINDINGS OF FACT

All information submitted at the public hearing will be included in the record of the hearing. Based on the comments and documentation submitted, the Council will consider whether it can make one or more of three required findings (listed below A-C) for enactment of the Land Use Management Ordinance Text Amendment and Zoning Atlas Amendment.

In order to establish and maintain sound, stable, and desirable development within the planning jurisdiction of the Town, it is intended that the Land Use Management Ordinance and Zoning Atlas shall not be amended except:

TECHNICAL REPORT

Council Public Hearing – 05/23/2018

- A. To correct a manifest error in the chapter; or
- B. Because of changed or changing conditions in a particular area or in the jurisdiction generally; or
- C. To achieve the purposes of the Comprehensive Plan.

Following is a staff response to the three required considerations:

- A. To correct a manifest error in the chapter

Staff Comment: We believe the information in the record to date can be summarized as follows:

Argument in Support: To date no arguments in support have been submitted.

Argument in Opposition: To date no arguments in opposition have been submitted.

- B. Because of changed or changing conditions in a particular area or in the jurisdiction generally

Staff Comment: We believe the information in the record to date can be summarized as follows:

Argument in Support: The Blue Hill District was created to foster a balanced mix of uses, both residential and commercial. With the proposed addition of up to 2,000 new residential units in the District, and very little commercial development proposed, Town Council feels that it has become unbalanced. Identification of specific properties as non-residential-only developments will help provide the needed commercial growth.

Argument in Opposition: Limiting new residential development could slow redevelopment of the district. Slower tax base growth could yield fewer financial resources for the Town to fund infrastructure improvements.

- C. To achieve the purposes of the Comprehensive Plan

Staff Comment: We believe the information in the record to date can be summarized as follows:

Argument in Support: Relevant goals and objectives in the Chapel Hill 2020 Comprehensive Plan include, but are not limited to:

- Family-friendly, accessible exterior and interior places throughout the town for a variety of active uses (*Goal A Place for Everyone 1*)
- A welcoming and friendly community that provides all people with access to opportunities (*Goal A Place for Everyone 4*)
- Foster success of local businesses (*Goal Community Prosperity and Engagement 2*)
- Promote a safe, vibrant, and connected (physical and person) community (*Goal Community Prosperity and Engagement 3*)
- A development decision-making process that provides clarity and consistency with the goals of the Chapel Hill 2020 comprehensive plan (*Goal Good Places New Spaces 3*)
- A range of neighborhood types that addresses residential, commercial, social, and cultural needs and uses while building and evolving Chapel Hill's character for residents, visitors, and students (*Goal Good Places, New Spaces 5*)
- Future land use, form, and density that strengthen the community, social equity, economic prosperity, and natural environment (*Goal Good Places, New Spaces 8*)

Argument in Opposition: To date no arguments in opposition have been submitted.

Staff will provide an evaluation of the findings of fact when this item returns to the Council on June 27, 2018.
