PURPOSE: To receive the 2023 Annual Report of the SAPFO Technical Advisory Committee (SAPFOTAC) and transmit it to the SAPFO partners for comments before certification in May.

NOTE: School Capacity Capital Investment Plan (CIP) Needs Analysis projects no new school system capacity needs in the next 10 years for elementary, middle and high school levels for both Orange County Schools (OCS) and Chapel Hill-Carrboro City Schools (CHCCS).

BACKGROUND:

1. Annual Report

Each year since 2004, the SAPFOTAC Report is updated to reflect changing conditions of student membership and school capacity. This information is analyzed and used to project future school construction needs based on adopted level of service standards. There are two steps to the full report to keep the SAPFO system calibrated: Student Membership and Capacity is certified in the fall; and then the full annual report is produced the following spring. At the December 13, 2022 BOCC meeting, the Board approved the November 15, 2022 actual Student Membership and Capacity numbers (i.e. first part) for both OCS and CHCCS. A draft of the full annual SAPFOTAC Report (Attachment 2) is complete and has been reviewed by the SAPFOTAC members.

2. SAPFOTAC

The SAPFOTAC is comprised of representatives of both school systems, the Planning Directors of the County and Towns, and County Finance staff. It is tasked to produce an annual report for the governing boards of each SAPFO partner outlining changes in actual membership, capacity, student projections, and their collective impacts on the Capital Investment Plan (CIP) and the future issuance of Certificates of Adequate Public Schools (CAPS). The CAPS are a requirement for new residential developments and reflect the capacity of the applicable school system to absorb the new students generated by the development project. Orange County's Planning Staff compiles the report, holds a meeting discussing the various aspects with the SAPFOTAC, and then prepares a draft report that is reviewed by the SAPFOTAC (Attachment 2).

3. Membership Data

CHCCS membership decreased in total by 75 students from the previous year:

- 81 Elementary School
- 4 Middle School
- + 10 High School

OCS membership decreased in total by 7 students from the previous year:

- + 36 Elementary School
- 58 Middle School
- + 15 High School

4. Capacity Data

There were no changes to school capacities this year.

5. Capacity Information

SAPFO vs. DPI

The SAPFO is a local ordinance, independent of State Department of Public Instruction (DPI) projections and rules regarding class size. The SAPFO, for instance, does not count temporary modular classrooms as fulfilling the capacity level of service outlined in the SAPFO interlocal Memorandum of Understanding (MOU). The MOU limits capacity analysis to 'bricks and mortar' structures instead of temporary facilities, and also requires its own set of future student projections to identify long-term capital school construction needs. However, the County did phase in DPI's smaller class size mandates in previous years, which decreased capacity. Decisions would have to be made if new changes at the State level affecting class size should, or should not, be reflected in the County's SAPFO.

6. Student Projection Analysis

CHCCS

Student membership projections show a mix of increases and decreases at all levels within the 10-year planning period. Projections are shown on page 36 of the report.

OCS

Student membership projections show a mix of increases and decreases at all levels within the 10-year planning period. Projections are shown on page 35 of the report.

7. School Capacity CIP Needs Analysis

CHCCS

Projected needs:

Elementary School	Projections show no needs in the next 10 years
Middle School	Projections show no needs in the next 10 years
High School	Projections show no needs in the next 10 years

OCS

Projected needs:

Elementary School	Projections show no needs in the next 10 years
Middle School	Projections show no needs in the next 10 years
High School	Projections show no needs in the next 10 years

8. Student Generation Rates

The updated student generation rates were approved on May 19, 2015 and are shown in Attachment II.E.1 of the report. Updated rates began to be used for CAPS issuances in

the fall of 2015 and are based on an inventory of recently built units from January 1, 2004 to December 31, 2013.

9. Access to Full Report

The draft SAPFOTAC report will be posted on the Orange County Planning Department's website. A letter (Attachment 1) and the Executive Summary of the report will be sent to all SAPFO partners after this BOCC meeting advising them of the availability of the draft report and inviting comment.

10. Additional Information

Mebane

The City of Mebane is not a SAPFO partner and does not utilize CAPS in its residential development review. However, county staff corresponds with Mebane annually in much the same way it does with SAPFO signatory communities and Mebane has continually provided its residential growth figures, as represented by certificates of occupancy as well as projected residential growth estimates. These figures are reflected in the Annual Report, including the Executive Summary.

Pre-K Enrollment

SAPFO does not include Pre-K in its membership and capacity numbers. In recent years, however, Pre-K enrollment has been a topic of discussion for both school districts. Pre-K membership enrollment for both districts are contained in the Executive Summary of the report.

Charter Schools

Charter and private schools are not included as part of the SAPFO Annual Report and, as a result, their membership and capacity numbers are not formally monitored or included in future projections. However, the SAPFOTAC monitors charter and private schools and their effect on student enrollment upon both school districts. Additional information regarding charter school enrollment is contained in the Executive Summary.

FINANCIAL IMPACT: Current student growth projections do not show capacity needs for additional schools in either the CHCCS District or OCS District during the 10-year projection period.

SOCIAL JUSTICE IMPACT: The following Orange County Social Justice Goal is applicable to this item:

- **GOAL: ENSURE ECONOMIC SELF-SUFFICIENCY**

The creation and preservation of infrastructure, policies, programs and funding necessary for residents to provide shelter, food, clothing and medical care for themselves and their dependents.

ENVIRONMENTAL IMPACT: There are no Orange County Environmental Responsibility Goal impacts applicable to this item.

RECOMMENDATION(S): The Manager recommends the Board:

1. Receive the 2023 SAPFOTAC Annual Report; and
2. Authorize the Chair to sign the transmittal letter to SAPFO partners contained in Attachment 1.

ADDITIONAL INFORMATION

Pre-K Students

In recent years, Pre-K enrollment has been a topic of discussion with both school districts. At this time, SAPFO has not been amended to include Pre-K in the membership and capacity numbers. However, Pre-K numbers and impacts continue to be monitored by the SAPFOTAC. Pre-K students for each district is as follows:

	Chapel Hill-Carrboro City Schools	Orange County Schools
School Year	Number of Students	Number of Students
2019-20	267	144
2020-21	208	86
2021-22	222	125
2022-23	295	101

Charter and Private Schools

Currently, there are two Charter Schools located in the Town of Hillsborough. Charter student membership for these two schools is as follows:

	Eno River Academy	The Expedition School
School Year	Number of Students	Number of Students
2017-18	542	326
2018-19	655 (+113)	355 (+29)
2019-20	715 (+60)	365 (+10)
2020-21	747 (+32)	365*
2021-22	751 (+4)	
2022-23	777 (+26)	

**The Expedition School reached full capacity of 365 students in 2019-20*

Charter and private schools are not included as part of the SAPFO Annual Report and, as a result, their membership and capacity numbers are not included in future projections. SAPFO projections are used for projecting only public school capacity/construction needs. However, the SAPFO Technical Advisory Committee does monitor charter and private schools and their effect on student enrollment in both school districts. If a charter or private school were to close and a spike were to be realized in school enrollment, the student projections would likely accelerate the need for additional capacity in future years, but likely still within an appropriate time for CIP planning. Charter Schools are also monitored by the Department of Public Instruction (DPI) which provides pupil information, based on data received from Charter Schools located in Orange County, to the County for funding purposes. The County budgeted for charter schools as follows:

	Chapel Hill-Carrboro City Schools	Orange County Schools
Fiscal Year	Number of Students	Number of Students
2017-18	162	617
2018-19	155 (-7)	769 (+152)
2019-20	169 (+14)	843 (+74)
2020-21	166 (-3)	885 (+42)
2021-22	156 (-10)	919 (+34)
2022-23	205 (+49)	951 (+32)

Although charter and private schools numbers are not collected for SAPFO purposes, impacts due to enrollment at these schools are accounted for in SAPFO process with the annual reporting of student membership and growth rates contained in the 10-year student projections.

Future Residential Development

Proposed growth is not included in the SAPFO projection system until actual students begin enrollment. The Certificate of Adequate Public Schools (CAPS) test is conducted during the approval process at a certain stage. Once students are enrolled in a school year, through annual reporting of student membership numbers, 10-year student projections can be updated to display future capacity needs in time to efficiently plan for future school capacity/construction requests. The SAPFOTAC continue to monitor and evaluate the demand and growth of residential development throughout Orange County as well as its effect on student membership rates. Below is a list of larger residential projects and the potential number of students from these projects which may have an impact in the short term. Please note, the City of Mebane is not a party to the SAPFO agreement and therefore does not require that CAPS (Certificate of Adequate Public Schools) be issued prior to development approvals. As a result, the expected number of students is based on unit type and bedroom count estimates.

Residential Project	Jurisdiction	Proposed Total Units	Expected Number of Students
Collins Ridge Phase 1	Hillsborough	672	Elementary: 84 Middle: 45 High: 57
Weavers Grove	Chapel Hill	235	Elementary: 44 Middle: 18 High: 20

School Renovation and Expansion

The Schools Adequate Public Facilities Ordinance (SAPFO) student projections illustrate when the adopted level of service capacities are forecasted to be met and/or exceeded in anticipation of Capital Improvement Plan (CIP) planning and the construction of a new school. Both school districts continue planning efforts to renovate and expand existing facilities to address school capacity needs in a more feasible way. Additional capacity resulting from school renovations and expansions will be added to the projection models in stages, once funding is approved, versus the addition of greater capacity when a new school is constructed and completed. The renovation and expansion to existing facilities may delay construction of new schools further into the future, depending on how and how much capacity is added to the system. Decisions on the timing of reconstruction (i.e. capacity additions) funding would be directly linked to the SAPFO model at the appropriate time.
