#### C. Application Type (check all boxes that apply)

☐ Minor Work Exterior works that do not involve any substantial alterations, and do not involve additions or removals that could impair the integrity of the property and/or the district as a whole. See <u>Design Guidelines</u> (p. 69) for a list of minor works.

Historic District Commission Review Includes all exterior changes to structures and features other than minor works

| Site-work only (walkways, fencing, walls, etc.) | After-the-fact application (for unauthorized work already performed). |
|---|---|
| Restoration or alteration                       | Demolition or moving of a site feature.                               |
| □New construction or additions                  | Request for review of new application after previous denial           |
| □Sign   |   |

## D. Basic information about size, scale, and lot placement.

Provide measurements in feet and square feet where applicable. Where possible, please provide accurate measurements from a licensed surveyor, architect, engineer, etc. If exact measurements are not available, please provide estimated information. Current estimated information about lots and buildings can be found on the <u>Orange</u> <u>County Real Estate Data</u> website. Information about lot placement can be found on the <u>Chapel Hill</u> and <u>Orange</u> <u>County Interactive GIS</u> portals.

### E: Applicable Design Guidelines

The Town's <u>Design Guidelines for the Chapel Hill Historic Districts</u> are integral to the application and review process. These guidelines supplement the required review criteria for Certificate of Appropriateness applications (provided in <u>Section 3.6.2(e)(4)</u> of the Land Use Management Ordinance) by providing detailed, practical considerations for how to make changes to properties while preserving the special character of their Historic District context. Please review the Design Guidelines and consider their applicability to your proposed project. (Attach additional sheets, as necessary.)

| Section/Page | Торіс | Brief description of the applicable aspect of your proposal   |
|--------------|-------|---|
| Page<br>37   | Roofs | Repair deteriorated or damaged roof features<br>and surfaces through recognized preservation<br>methods for specific feature or material.                             |
|              |       | Replace in kind roof features and surfaces that are<br>too deteriorated to repair, matching the original in<br>material, design, dimension, pattern, detail, texture, |
|              |       | and color. Consider a compatible substitute material<br>only if replacement in kind is not technically<br>feasible.   |

## **G:** Applicant signature

I hereby certify that I am authorized to submit this application; that all information is correct to the best of my knowledge, and all work will comply with the State Building Code and all other applicable State and local laws, ordinances, and regulations.

I acknowledge and agree that the Historic District Commission members, Town employees, and Town agents may enter, solely in performance of their official duties and only at reasonable times, upon the applicant's property for examination or survey thereof pursuant to North Carolina General Statute 160A-400.8. However, no member, employee, or agent of the Historic District Commission may enter any private building or structure without the express consent of the owner or occupant thereof.

I understand and agree that an approved Certificate of Appropriateness is valid only for the particular application, plans, specifications and related project details presented to, and approved by, the Historic District Commission. If any of the data contained in this application, any plans or any specifications presented to the Commission are changed or altered for any reason, including, but not limited to, changes or alternations deemed practically necessary during construction, required due to subsequent Town reviews, or otherwise, a new hearing before the Historic District may be required. By signing below, the applicant agrees to notify the Development Services Center of any changes or alternations in the data contained in this application, the approved plans or the approved specifications related to the project that is the subject of this application.

Hearings on Certificate of Appropriateness applications before the Commission are quasi-judicial proceedings. Therefore, Historic District Commission members are not permitted to discuss a pending application with the applicant or other party. By signing below, the applicant agrees to refrain from speaking with or contacting any member of the Historic District Commission about an application outside of the formal evidentiary hearing on the application.

## **Certificate of Appropriateness Supplemental Requirements**

#### \*In addition to Residential Zoning OR Administrative Zoning Compliance Permit Requirements

Certificate of Appropriateness applications are subject to review and approval by the Historic District Commission as well as by Town staff. For assistance with this application, please contact the Chapel Hill Planning Department.

Please submit all materials listed <u>on this sheet</u>. The Historic District Commission meets on the second Tuesday of each month at 6:30 pm. For confirmation of a meeting date and the placement of your request on the agenda, please call the Planning Department. Applications are due one month in advance of meeting.

## **Application Process:**

- 1. Historic District Commission Review of Certificate of Appropriateness (COA) Supplemental materials
- 2. Staff review of Residential / Administrative Zoning Compliance Permit (ZCP) materials

\*\*COA (step 1) and ZCP (step 2) materials may be submitted simultaneously or separately.

## **Required Application Materials**

(In addition to Residential Zoning Compliance Permit or Administrative Zoning Compliance Permit Requirements)

An Electronic copy of each document is required in addition to paper copies.

Provide a single set of the following materials:

- 1. Application Form. Either <u>Residential</u> Zoning Compliance or <u>Administrative</u> Zoning Compliance.
- 2. Recorded plat or deed verifying property's current ownership
- 3. Recorded plat of easements, right-of-way, and dedications, if applicable
- 4. <u>Mailing List of Property Owners</u>, applicable within 100 feet of property boundaries The Town will prepare a formal notice to be mailed to surrounding property owners about the application. You may find it helpful to discuss the proposed changes with your neighbors in person so you can address their concerns both in your planning and presentation.

- 5. Mailing notification fee. The fee per address can be found on the Planning Department's Fee Schedule.
- 6. Certificate of Appropriateness fee per Planning Department's Fee Schedule
- 7. Reduced Site Plan Set (reduced to 8.5" x 11")
- 8. Building Elevations (label building height from top of roof to finished grade line)
- 9. Floor Plan, only if accessory apartment, duplex, or commercial application.

Town of Chapel Hill Office of Planning and Sustainability Development Services 919-969-5066 planning@townofchapelhill.org

## (Continued)

#### 10. Written Description

Describe all proposed changes to the property, list all materials to be used, and address the criteria (listed below) that the Commission uses to determine appropriateness. Presenting your proposal with these criteria in mind will provide a clear basis for the Commission's deliberations.

- a) The height of the building in relation to the average height of the nearest adjacent and opposite buildings;
- b) The setback and placement of the building on the lot in relation to the average setback and placement of the nearest adjacent and opposite buildings;
- c) The exterior construction materials, including textures and patterns;
- d) The architectural detailing such as lintels, cornices, brick bond, and foundation materials;
- e) The roof shape, form, and materials;
- f) The proportion, shape, location, pattern, and size of any elements of fenestration (windows, doors);
- g) The general form and proportion of the buildings;
- h) The accessory fixture and other features (including lighting fixtures, hardware, awnings, etc.);
- i) The architectural scale in relation to existing structures and surrounding buildings; and
- j) Structural conditions and soundness.

Provide photographs of existing property and elevation drawings of the proposed changes. Depict changes in as much detail as possible, paying special attention to those features which the Commission uses to determine appropriateness. This section of the application allows the Commission to see the current state of the property, to visualize the proposed changes, and to assess the impact. The visual description must include dimensions. For new buildings and major additions, the visual description must include the interior floor plan.

#### 11. Information Regarding Surrounding Properties

For new construction or large projects, the applicant is required to provide information on:

- The height of the nearest adjacent and opposite buildings;
- · The setback and placement of the nearest adjacent and opposite buildings;
- The scale of the nearest adjacent and opposite buildings, including percentage of lot coverage.

#### 12. Demolition Information (if applicable)

Provide a description of architectural features, additions, remodeling, and any alterations to the structure(s). Make note of any outbuildings on the site plan of the property. Provide a history of the structure, giving the construction date and architect or carpenter, briefly noting any significant events, persons, and/or families associate with the property.

#### Written Description:

Our Plan is to renovate the metal roof on this property and protect the structures underneath it from further risks of storm exposure and storm damage.

After conducting a roof inspection back on 02/2018 we were able to get the homeowners insurance company to release funds to renovate and upgrade the roof to protect it from extreme weather.

During the roof inspection we found nickel to quarter sized hail strikes to metal structures throughout the roof.

No Damage was found on the carport.

We noticed water intrusion damage to the fascia boards and pipe boots on the roof and some wind damage to the fascia boards and metal structures toward the front of the property.

My job is to work with Metropolitan Builders and the Insurance company to accomplish that task and give the homeowner peace of mind in knowing that her home will be protected from the elements.

We have one mission, that is to protect this landmark and give it more time in the community. Historic Properties have always been a interest of mine, I am honored to have been given an opportunity to work with this homeowner on her property and express her concerns to you. The roof on this property is over 100 years old and has never been replaced. As long as we can get the permits we need and enforce the need to bring this roof to a current state with the insurance company. We will see this property move forward to see future generations. If we don't get what we need for this build the Historic Society will continue to see a rapid deterioration in this property and many like it.

#### History of the Property

Built in 1917 by John Fowler

Purchased by Walley Kaufman of Hartwood Realty 1974

It was believed that the previous owner was attempting to turn the house into a boarding home and by enlisting the help of Edgar Stuurdivant to remodel the house.

Kaufemans plans to turn it in to 6 cooperative apartments were debunked by the town. Until Molly Cole from the NCNB "went to bat" for Kaufeman and got the bank to grant the loan for the project.

Kaufeman hired the a construction firm Barrett, Robert and Wood to do most of the Carpentry work.

Frank Wells to do the floors.

Carty Brothers to do the Brick Work.

At some point during this exciting transition the main house was purchased by an associated professor at UNC David Klainbaum and his wife Anna Peed Klainbaum now (Peed-Washington)

The property has not gone through any major changes since the 70's

#### **Justification of Appropriateness**

The Historic District Design Guidelines provide guidelines for roofs on page 37:

4. Repair deteriorated or damaged roof features and surfaces through recognized preservation methods for specific feature or material.

5. Replace in kind roof features and surfaces that are too deteriorated to repair, matching the original in material, design, dimension, pattern, detail, texture, and color. Consider a compatible substitute material only if replacement in kind is not technically feasible.

After attending a prior HDC meeting in July, I researched metal panels closely matching what is already on the roof. Due to the issue that the roof is 100 + years old we were not able to get it match exactly to what the roof is currently.

This Panel Offers a more vintage look while keeping a historic feel which is what both the homeowner and the Historic District are looking for.

- available in 24 gauge steel
- Concealed fasteners
- UL 580/UL 1897 tested
- Florida Product Approval
- Miami-Dade Approval

Materials:

- Standard material is 24-Gauge, Galvalume<sup>®</sup>
- Unfinished material is Acrylic Coated Galvalume<sup>®</sup>

The Vender will have to agree to terms put in place by our corporate office and insurance company.

## <u>Photos</u>

305 McCauley st, Chapel Hill North Carolina 27516- Front Of Property

Roof view of roofing structures facing toward front and right of property of 305 McCauley st. Three total pipe boots on this side of the property that need to be replaced.

Aged metal panels with rust build up on front of property.

Noticeable hail sticks to metal structures on the roof.
