Local Affordable Housing Funding Sources Scoring Criteria - Development Projects

	e Target (maximum 25 points)		
a.	The households to be served through the proposed proje	ct fall	
	within the household income ranges.		
	Household Income Range	Points	See Question 7
	0-30% AMI	25	
	31-60% AMI 61-80% AMI	20 15	
	81-100% AMI	10	
	100-120% AMI	5	
/era	ge (maximum 25 points)		
_	The degree to which the proposed project includes		
a.	other sources of funds.	Dainta	Can Overtion C
	Percent Funded by Town Source 81-100%	Points 0	See Question 6
	60 – 80 %	5	
	40 – 59 %	10	
	20 – 39 %	15	
	10 – 19 %	20	
	< 10 %	25	
sih	ility (maximum 10 points)		
15115	mey (maximum 20 points)		
a.	The applicant can demonstrate zoning compliance.	2	See Attachment - Project
			Information
b.	The proposed project has equity greater than 10%.	2	See Attachment- Budget
	50% of other financing has been committed by other		
C.	sources.	2	See Attachment- Budget
d.	Planning approval already received.	2	See Question 7
	The applicant involved the intended beneficiaries of		
	the project in the planning process.	2	See Question 10
			223 3000001110
eri	ence (maximum 20 points)		
2	Experience of the applicant in carrying out projects of		
a.	comparable scope and nature.		Soc Overtice 0
	The applicant has successfully completed 5 or many		See Question 3
	The applicant has successfully completed 5 or more comparable projects.	10	
	The applicant has successfully completed 1-4	5	
	comparable projects	3	
	The applicant has successfully completed no comparable	0	
	projects.		
	Applicant has successful record of meeting project		
	budgets and schedules with projects funded by the Town.		See Question 3
	All projects funded by the Town completed on schedule,		
	within budget, and without any major performance	10	
	issues. Some projects funded by the Town completed on		
	schedule, within budget, and without any major	5	
	performance issues.		
	No projects funded by the Town completed on schedule		
	No projects funded by the Town completed on schedule, within budget, and without any major performance	0	
	issues.	ŭ	
.:	(manipum 20 maints)		
sign	(maximum 30 points)		
	The proposed project utilizes energy efficiency		
а.			
a.	principles.		See Question 8
a.		10	See Question 8
a.	Meets Energy Star 2.0 Standards and Requirements	10	See Question 8
а.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes	10 5	See Question 8
а.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures	5	See Question 8
а.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes		See Question 8
a.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures	5	See Question 8
a.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards.	5	See Question 8 See Question 9
a.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design.	5	
a.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of	5	
a.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design.	5	
a.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features.	5 0 10 5	
a.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features.	5 0 10	
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features.	5 0 10 5	
а. b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare,	5 0 10 5	See Question 9
а. b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services	5 0 10 5 0	
a. b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation.	5 0 10 5 0	See Question 9
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation.	5 0 10 5 0 10	See Question 9
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation.	5 0 10 5 0	See Question 9
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation. t (60 points) Scoring Criteria The proposed project aligns with Town Council Goals	5 0 10 5 0 10 Points	See Question 9
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation. t (60 points) Scoring Criteria	5 0 10 5 0 10	See Question 9
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation. t (60 points) Scoring Criteria The proposed project aligns with Town Council Goals and adopted affordable housing strategies. The proposed project includes provisions to ensure	5 0 10 5 0 10 Points	See Question 9 See Attachments
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation. t (60 points) Scoring Criteria The proposed project aligns with Town Council Goals and adopted affordable housing strategies.	5 0 10 5 0 10 Points	See Question 9 See Attachments
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation. It (60 points) Scoring Criteria The proposed project aligns with Town Council Goals and adopted affordable housing strategies. The proposed project includes provisions to ensure long-term affordability. Less than 15 years	5 0 10 5 0 10 Points	See Question 9 See Attachments See Question 11
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation. It (60 points) Scoring Criteria The proposed project aligns with Town Council Goals and adopted affordable housing strategies. The proposed project includes provisions to ensure long-term affordability. Less than 15 years 15-20 years	5 0 10 5 0 10 Points 10	See Question 9 See Attachments See Question 11
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation. It (60 points) Scoring Criteria The proposed project aligns with Town Council Goals and adopted affordable housing strategies. The proposed project includes provisions to ensure long-term affordability. Less than 15 years 15-20 years 21-30 years	5 0 10 5 0 10 Points 10	See Question 9 See Attachments See Question 11
b.	Meets Energy Star 2.0 Standards and Requirements Does not meet Energy Star 2.0 Standards but includes some energy efficiency measures Does ot include any energy efficiency standards. The proposed project utilizes the principles of Universal Design. Includes many universal design features. Includes some universal design features. Does not include any universal design features. The proposed project is accessible to needed services for the population to be served, such as healthcare, schools, and public transportation. t (60 points) Scoring Criteria The proposed project aligns with Town Council Goals and adopted affordable housing strategies. The proposed project includes provisions to ensure long-term affordability.
