---

## Interests & Experiences

### What perspective(s) do you bring to the board(s), commission(s), committee(s) or task force(s) to which you are applying?

---

I used to work for the Transportation for America campaign within Smart Growth America. I was the Field Director for the campaign and worked to engage stakeholders that were supportive of transportation policies that promoted a transportation system that supported environmentally sound, equitable, economically strong communities. Some of the relevant work that I did there included education around well-designed streets that are safe for all users, including bicyclists and pedestrians (Complete Streets) and the importance of access to public transit. I am passionate about supporting a holistic approach to transportation that makes it possible for all people to have transportation options, including biking, walking, and transit. I conducted focused education on ways that our transportation system could better serve distinct populations, including minority populations in urban areas, senior citizens, people in rural areas, Millennials, and suburban commuters. I built coalitions that included representatives from organizations as diverse as the Nashville Chamber of Commerce, the Urban League, the Navajo Nation Department of Transportation, the AARP, and local and national bicycle and pedestrian advocacy groups. I believe strongly in seeking feedback from all stakeholders to create a holistic approach to a transportation system that benefits everyone. I currently am the Transportation Finance and Operations Manager at the NC Clean Energy Technology Center, where I work with both private and public fleets across the state on ways that they can implement clean transportation technologies. One area where my current work intersects with transportation connectivity is my work on organizing a track of the State Energy Conference in April 2017 that will focus on transportation alternatives, including panels on vibrant, walkable downtowns for cities and towns, a panel on different types of rail projects in the state, and a panel on Complete Streets. I wish to work to ensure that our transportation system in Chapel Hill is meeting the needs of all residents, including (but not limited to) students, low-income residents, senior citizens, and local businesses. I will actively seek feedback from a diverse range of stakeholders, using my experience in coalition-building around transportation to seek common ground so that decisions are made that best meet everyone's needs.

**Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.**

I have been transit dependent in Chapel Hill in the past and still use transit a couple times per month.

## Ethics Statement

## ETHICS GUIDELINES FOR TOWN ADVISORY BOARDS AND COMMISSIONS

---

Members of advisory boards and commissions shall not discuss, advocate, or vote on any matter in which they have a conflict of interest or an interest which reasonably might appear to be in conflict with the concept of fairness in dealing with public business. A conflict of interest or a potential conflict occurs if a member has a separate, private, or monetary interest, either direct or indirect, in any issue or transaction under consideration. In addition, members of the Historic District Commission and Board of Adjustment, when these boards are hearing cases, serve as quasi-judicial bodies. Pursuant to State Statute 106A-388(e)(2), members of these boards “shall not participate in or vote on any quasi-judicial matter in a manner that would violate affected persons’ constitutional rights to an impartial decision maker. Impermissible violations of due process include, but are not limited to, a member having a fixed opinion prior to hearing the matter that is not susceptible to change, undisclosed ex parte communications, a close familial, business, or other associational relationship with an affected person, or a financial interest in the outcome of the matter.”

Any member who violates these Ethics Guidelines may be subject to removal from the board or commission. If the advisory board or commission member believes he/she has a conflict of interest then that member should ask the advisory board or commission to be recused from voting. The advisory board or commission should then vote on the question on whether or not to excuse the member making the request. In cases where the individual member or the advisory board or commission establishes a conflict of interest, then the advisory board or commission member shall remove themselves from the voting area. Any advisory board or commission member may seek the counsel of the Town Attorney on questions regarding the interpretation of these ethics guidelines or other conflict of interest matters. The interpretation may include a recommendation on whether or not the advisory board or commission member should excuse himself/herself from voting. The advisory board or commission member may request the Town Attorney respond in writing.

## Interests & Experiences

### What perspective(s) do you bring to the board(s), commission(s), committee(s) or task force(s) to which you are applying?

---

Since living in Chapel Hill for over 20 years, I have seen a lot more congestion on city streets and commuter freeways. During those 20 years, I have been alternatively a cyclist, bus commuter and freeway commuter so I have a myriad of transportation experiences. While I understand that growth and development will happen, and as a community we have had some sensitivity to commuter issues surrounding development, I'd like to contribute my experience to the future planning and development of transportation needs.

### Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.

---

Recently, I moved just outside city limits (across from Southern Village off Old Lystra Road) and I understand that I can maintain my role as vice-chairman of the board if I am the bicycle advocate. I commuted many years to the University by bike so I am well aware of the challenges faced by bicycle commuters. Currently, I use many of the Chapel Hill greenways and am encouraged to see connectivity opportunities. Another goal of mine is to encourage development of opportunities for kids and teenagers in the community to have more transportation options available to them.

## PROFESSIONAL EXPERIENCE

### AG-TECHINVENTURES • 2017 - Present

#### TECHNICAL LEADERSHIP

Fractional CEO for start-up company, Rx Maker, a precision agriculture company creating soil maps for nutrient management.

Fractional CEO for start-up company, Ingateygen, a company developing an allergy free peanut to reduce food recalls.

### PHYTA BIOTECH CONSULTING, LLC. • 2017 - Present

#### INDEPENDENT CONSULTANT-STRATEGIC TECHNICAL LEADERSHIP

Drive innovation and collaborative strategies for startup companies, universities and their strategic partners.

### NORTH CAROLINA STATE UNIVERSITY • 2005 - Present

#### ADJUNCT FACULTY — DEPARTMENT OF PLANT & MICROBIAL BIOLOGY

Deliver yearly seminars as part of biotechnology and ethics courses and help with curriculum development. While working at Monsanto, hosted research interns from North Carolina State University.

### MONSANTO COMPANY • 2005 - 2016

#### MONSANTO FELLOW

Contributed to the corporate strategy efforts of cultivating relationships with scientific societies, specifically American Society of Plant Biology, American Phytopathology Society and American Society of Microbiology.

#### BIOTIC AND ABIOTIC ASSAY LEAD

- Lead team of 4-6 people to design and execute innovative high content microscopic screening utilizing machine learning to improve plant health with respect to fungal pathogens.
- Secured North Carolina Biotechnology Grant (\$40,000 company match) with the University of North Carolina, Charlotte.
- Direct a highly entrepreneurial research team of 8 members tasked with using novel and established model plant systems to accelerate development of next-generation yield and stress biotechnology products.
- Member of scientific advisory boards for Monsanto's collaborations with Grassroots, Inc. and Sapphire, Inc.

#### INTERIM SITE LEAD

Drove the setting and implementation of long-term direction goals for the site. Provided oversight to cross-functional teams of over 70 members specialized in physiology, automation, software and statistics, operations and safety to produce physiology data from crops using automated and standard phenotype screening in controlled environments. Represented the company and the site at public events, including the YouTube blog for the North Carolina Biotechnology Center (<https://www.youtube.com/watch?v=nyAP1xmgu0>)

- ♦ Initiated, planned and hosted long-range planning conference with project teams from headquarter site (~40 people).

- ◆ Established research collaboration with Institute for Advanced Analytics at North Carolina State University to enable the use of Monsanto Yield and Stress Data.

#### **PROJECT LEAD — CORN COLD/WET TOLERANCE PROJECT**

Managed and guided a team of 5 staff members through daily project operations including conducting high throughput controlled environment screening, experimental design and data collection, and interpretation.

#### **~EARLIER RESEARCH EXPERIENCE~**

**Senior Research Scientist at Icoria & Paradigm Genetics Inc.(Awarded STTR Phase I grant)**  
**Post-doctoral Researcher at The University of North Carolina, Chapel Hill(Awarded NIGMS grant)**  
**Post-doctoral Researcher at North Carolina State University, Raleigh**  
**Graduate Student at the University of California, San Diego**

---

## Interests & Experiences

### What perspective(s) do you bring to the board(s), commission(s), committee(s) or task force(s) to which you are applying?

---

I will bring a few different perspectives to the Transportation and Connectivity Advisory Board: 1) As a multi-modal transportation user. I have lived a car-free lifestyle for ~ 3 years, and commute/run errands by bike, bus, and my two feet; 2) Knowledge of planning and local government process. I'm AICP, earned my Masters of Urban and Regional Planning, and worked in political and planning offices within local governments for 8 years. 3) Insight from property owner/development community perspectives. I'm a land planner for a private firm during the day and I represent property owners in property redevelopment and other real estate matters. So when reviewing development applications, I may be able to relate to some of the applicant's perspectives. 4) Downtown Resident: I use the multiple transportation facilities in our downtown area on a regular basis. 5) Non-Student Young adult. I'm a millennial without an affiliation to the University. It seems like there aren't a ton of that demographic. I'm interested in contributing to the transportation network that will be used by the next generation. This will look different than what currently exists, between autonomous vehicles, growth in TNC's, and increased willingness of younger generations to use different transit modes. 6) Previous Chapel Hill planner. I'm familiar with the planning processes and entities that will be discussed on a more technical manner as well.

**Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.**

I believe I'm ideally suited for the Transportation Board given my personal and professional attributes. I'm a bicycle and transit advocate who has lived a car-free lifestyle for three years now. Riding the bike, walking, and taking the bus is a core part of my lifestyle. Public service has also been a central tenet of my life for several years. Until just recently I've spent my entire career working for local governments. First in the office of an elected official, and second in two different planning departments. Most recently I worked for Chapel Hill, and with that said, I look forward to offering contributions as a citizen, not as a city planner and not interfering with the planners work but offering my perspective as a user and advocate. I've spent much of my career staffing evening community meetings, so I was surprised at myself when I decided to apply and volunteer my time. Public service is important to me and it turns out I've missed this and want to engage in this way with my community. I've staffed and served on Boards & Commissions previously, and notably I was on the Fairfax Bicycle Advisory Committee and helped draft the County's Bicycle Plan. I hope to contribute to your Board and offer the various perspectives I offer as a multi-modal user; millennial demographic; downtown resident; trained planner with public sector and property representation experience; and most importantly a genuine interest in continuing to improve our transportation network. I'm glad to discuss my qualifications further and appreciate your consideration.

Residency within the Town limits is required for membership on most Council advisory bodies. Memberships of some committees and task forces may be composed of up to forty percent of non-Town residents.

**What district do you live in? \***

☒ Chapel Hill Town limits (Purple)

[Please consult the town maps HERE if you are unsure.](#)

**If you are a Chapel Hill Resident, How long have you lived here?**

☒ 1-3 years

---

The Council encourages you to visit a meeting of the group that you are interested in serving on. Please choose no more than two groups from the list below to which you would like to apply.

**Which Board is your First Choice? \***

☒ Transportation and Connectivity Advisory Board

## Which Boards would you like to apply for?

---

Transportation and Connectivity Advisory Board: Eligible

Question applies to Transportation and Connectivity Advisory Board

### Select a Seat Category for the Transportation and Connectivity Advisory Board \*

---

☒ Chapel Hill Resident

### How did you find out about this opportunity? (select all that apply by holding down the shift key)

---

☒ Newspaper

---

If you chose "Other" from the advertising opportunity listed above, please specify specify:

---

## Interests & Experiences

### What perspective(s) do you bring to the board(s), commission(s), committee(s) or task force(s) to which you are applying?

---

I am a retired transportation planner.

### Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.

---

I was professionally focused on rail transportation development and had a conservative approach to such projects. I believe that the present uncertainty surrounding the Orange-Durham Light Rail project can result in a new perspective on this project.

Ethics Statement

## ETHICS GUIDELINES FOR TOWN ADVISORY BOARDS AND COMMISSIONS

---

Members of advisory boards and commissions shall not discuss, advocate, or vote on any matter in which they have a conflict of interest or an interest which reasonably might appear to be in conflict with the concept of fairness in dealing with public business. A conflict of interest or a potential conflict occurs if a member has a separate, private, or monetary interest, either direct or indirect, in any issue or transaction under consideration. In addition, members of the Historic District Commission and Board of Adjustment, when these boards are hearing cases, serve as quasi-judicial bodies. Pursuant to State Statute 106A-388(e)(2), members of these boards “shall not participate in or vote on any quasi-judicial matter in a manner that would violate affected persons’ constitutional rights to an impartial decision maker. Impermissible violations of due process include, but are not limited to, a member having a fixed opinion prior to hearing the matter that is not susceptible to change, undisclosed ex parte communications, a close familial, business, or other associational relationship with an affected person, or a financial interest in the outcome of the matter.”

Any member who violates these Ethics Guidelines may be subject to removal from the board or commission. If the advisory board or commission member believes he/she has a conflict of interest then that member should ask the advisory board or commission to be recused from voting. The advisory board or commission should then vote on the question on whether or not to excuse the member making the request. In cases where the individual member or the advisory board or commission establishes a conflict of interest, then the advisory board or commission member shall remove themselves from the voting area. Any advisory board or commission member may seek the counsel of the Town Attorney on questions regarding the interpretation of these ethics guidelines or other conflict of interest matters. The interpretation may include a recommendation on whether or not the advisory board or commission member should excuse himself/herself from voting. The advisory board or commission member may request the Town Attorney respond in writing.

---

☒ I Agree \*

*Applications will be kept on file from July 1st to June 30th of the same fiscal year. Please reapply each fiscal year if you are still interested in serving on an Advisory Board, Commission, Committee or Task Force and have not yet been appointed.*

## Interests & Experiences

### What perspective(s) do you bring to the board(s), commission(s), committee(s) or task force(s) to which you are applying?

---

I have a degree in Landscape Architecture and I used to work for city government doing residential and commercial zoning approvals. Recently, I enjoyed participating in volunteer work, for my community, on the Architectural Review Board. Familiarity with zoning, transportation and construction plans will allow me to clearly interact with the board. I would really enjoy being part of the process of making Chapel Hill an even better community in which to live.

### Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.

---

My thesis was a comparison study of Seattle and Bellevue Parks access via pedestrian and public transportation. Meeting attendance regarding the local light rail project and keeping up to date on new development in the area provides a greater understanding of overall planning in the area. I have good computer skills and I am well versed in communicating with the public regarding construction and development issues.

### Summary of Qualifications

Design professional with background in city, county and federal government.

Proficient in administrative work, research and writing.

### Education

Appalachian State University Boone, NC – Bachelors of Psychology, 1994

NC State University Raleigh, NC - Masters in Landscape Architecture, 2000

### Technical Skills

Schematic design Document writing/editing Microsoft Office Mac/PC software

Design/Planning skills Photography

### Landscape Architecture/Planning Skills

#### Planning

- Researched project sites in commercial and residential zoned areas for regulations and applicable information
- Utilized G.I.S. to assess home values in relation to neighborhoods and included trail, parks and transportation connections to specific areas.

#### Communications & Office Management

- Communicated with Architectural Review Board members, contractors and homeowners to approve or deny changes to their residence
- Developed relationships with university officials and scientists in managing grant funding applications.

#### Design/Research

- Researched project sites in commercial and residential areas for zoning regulations.
- Conducted drainage calculations and cost estimation of projects.
- Communicated with homeowners to design a plan and layout for a residence utilizing site evaluation, photographs, sketches and AutoCAD.
- Created hand drawn illustrations through collage, pen and ink and digital color manipulation for businesses and finalist in Walking for the Wounded.
- Made conceptual drawings, site visits, survey work and photographic documentation of Wake County schools and parks.

### Work History

Secretary, Architectural Review Board, Woodcroft Durham NC

Site Review Specialist, City of Raleigh, Raleigh NC

Designer, Envirotek Inc, Raleigh, NC

## Interests & Experiences

### What perspective(s) do you bring to the board(s), commission(s), committee(s) or task force(s) to which you are applying?

While I do not currently live within the Chapel Hill Town Limits (I own a house in Orange County on Union Grove Church Rd), I have a bachelor's degree from UNC Chapel Hill and have lived in Chapel Hill or Carrboro since 2009. I work in Downtown Durham and commute there by car every day, I ride bicycles in the Chapel Hill area for pleasure and for transportation, and my partner rides a motorcycle for pleasure and transportation. I'm passionate about Transportation and believe it has a direct impact on the future, and strongly effects the present experience, economics, and quality of life in any given area.

### Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.

Philosophy degree (i.e. formal training in logic); organizational skills; communication skills; 8 years of management experience; strong believer in science and critical thinking.

## Interests & Experiences

### What perspective(s) do you bring to the board(s), commission(s), committee(s) or task force(s) to which you are applying?

---

Transportation/mobility issues, along with growth policy, are the most important issues expressed by Chapel Hill residents in the last several Surveys of Community Services because these impact every person residing, working or attending school in Chapel Hill. As a senior citizen, I fully understand this ranking and am likewise greatly concerned about traffic congestion, transit usefulness (routes and headway), and connectivity and safety for pedestrians and bicyclists trying to get around in Town. One of the key goals of the Town has to be to reduce the number of automobile trips required to "get around". I strongly support the Chapel Hill Mobility and Connectivity Plan sponsored by the TCAB and adopted by the Town Council in October 2017 which provides a wonderful set of recommendations to reduce automobile trips and thus alleviate the looming problems recognized in the Community Services survey by residents of all ages. As a bicyclist that frequents our Greenways and neighborhood streets, as a pedestrian that walks all over the greater Blue Hill/CH Public Library area, and as a motorcyclist and automobile driver in Chapel Hill, I have come to understand the importance of accommodating all modes of mobility and the need to insure that high risk interactions between these means of getting around are minimized while providing comprehensive connectivity.

**Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.**

I have been the primary supporter of electric buses for use by Chapel Hill Transit and correspondingly have attended the last 2 years of Chapel Hill Public Transit Committee meetings. As a result I have become quite familiar with how the bus transit system meets some of the transportation needs of people that live and/or work in Chapel Hill, Carrboro, and UNC and how the bus system can be improved. I will bring analytic skills and some experience to the Board. I've studied the traffic modeling that has been done for the greater Ephesus-Fordham (now Blue Hill) area which shows that automobile traffic congestion will soon become a very significant problem. Unfortunately few of the mitigation steps identified by modeling to keep area traffic moving will be in place when needed due to rapid, major redevelopment along the Fordham Blvd and Raleigh Road corridors. The need to complete this traffic modeling for all of Chapel Hill is pressing and I will advocate that the TCAB should lobby Council accordingly. As a graduate engineer with an MBA, I have worked at Chevrolet Engineering in vehicle testing, at IBM Corp for a dozen years in various systems engineering and product planning positions, and two dozen years at Nortel Networks in various management positions and thus understand communications, real-time modeling and price/performance budget tradeoffs. I have been involved with various Town activities since I retired from my consulting business starting with the Town Wireless Network planning, a successful NCD development process for my neighborhood, followed various of the Town's "TIA's" traffic studies, participated fully in the 2020 Comprehensive Plan (attended over a year of business development meetings), contributed to the Central West Small Area Plan process, observed all the Ephesus-Fordham Form Based Code District activities closely — particularly the Current and Future Conditions Traffic Studies and associated modeling. I have also attended almost all of the Council Committee on Economic Sustainability meetings since their beginning and thus have a pretty decent feel for what kind of growth is in process of making "getting around" more difficult in Town. It is my hope to be able to use my experience with budgeting and prioritization to help the TCAB make valuable and viable recommendations to Town Council to comprehensively implement the suggestions in the Chapel Hill Mobility and Connectivity Plan in a timely fashion that corresponds to the various redevelopment activities proceeding and planned all around our Town.

## Interests & Experiences

### What perspective(s) do you bring to the board(s), commission(s), committee(s) or task force(s) to which you are applying?

---

Currently, I am a Master of Public Administration graduate student at UNC-Chapel Hill. I can provide a UNC student perspective to the board as well as a graduate student perspective with living and working in Chapel Hill year-round. I ride the bus almost daily, which can help give perspective and knowledge of certain routes.

### Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.

---

In UNC's Master of Public Administration program, the program focuses on local government and nonprofits. In my Public Institutions and Values and City and County Management courses, we discuss economic development, budgeting, local governmental systems, and intergovernmental agreements. The way local governments invest in their residents and businesses through economic development strategies and providing public transportation has always been an interest of mine. Seeing how the Town of Chapel Hill supports the interactions, commutes, and business happening in Chapel Hill daily has further ignited this interest. Having a more hands-on role in the process, would be a great opportunity!

## Ethics Statement

## ETHICS GUIDELINES FOR TOWN ADVISORY BOARDS AND COMMISSIONS

---

Members of advisory boards and commissions shall not discuss, advocate, or vote on any matter in which they have a conflict of interest or an interest which reasonably might appear to be in conflict with the concept of fairness in dealing with public business. A conflict of interest or a potential conflict occurs if a member has a separate, private, or monetary interest, either direct or indirect, in any issue or transaction under consideration. In addition, members of the Historic District Commission and Board of Adjustment, when these boards are hearing cases, serve as quasi-judicial bodies. Pursuant to State Statute 106A-388(e)(2), members of these boards “shall not participate in or vote on any quasi-judicial matter in a manner that would violate affected persons’ constitutional rights to an impartial decision maker. Impermissible violations of due process include, but are not limited to, a member having a fixed opinion prior to hearing the matter that is not susceptible to change, undisclosed ex parte communications, a close familial, business, or other associational relationship with an affected person, or a financial interest in the outcome of the matter.”

Any member who violates these Ethics Guidelines may be subject to removal from the board or commission. If the advisory board or commission member believes he/she has a conflict of interest then that member should ask the advisory board or commission to be recused from voting. The advisory board or commission should then vote on the question on whether or not to excuse the member making the request. In cases where the individual member or the advisory board or commission establishes a conflict of interest, then the advisory board or commission member shall remove themselves from the voting area. Any advisory board or commission member may seek the counsel of the Town Attorney on questions regarding the interpretation of these ethics guidelines or other conflict of interest matters. The interpretation may include a recommendation on whether or not the advisory board or commission member should excuse himself/herself from voting. The advisory board or commission member may request the Town Attorney respond in writing.

My Perspectives on Planning for Chapel Hill In my view the key to a successful future for our town is to shape the inevitable growth and change that will occur so as to maintain Chapel Hill's unique and desirable characteristics. Our town has a diverse, dynamic, culturally and intellectually engaged population that appreciates the physical beauty of our local environment and the overall quality of life that it affords. It also appreciates the excellence of our schools, the multiplicity of our distinctive cultural activities, and the great variety of our highly individualized local businesses. However, many aspects of the Chapel Hill life style are potentially threatened in the current economic environment. Chapel Hill must be a place where people of all income levels and all religious, ethnic and life-style backgrounds can be accommodated. Unfortunately we are currently failing to provide sufficient low to moderately priced housing to meet this goal. Reversal of this trend must be a very high priority for the Town and be a major aspect of its planning process. Chapel Hill should remain a unique university town community and not become a 'homogenized' suburb of the Triangle metropolitan area. Regrettably, recent large-scale developments in Chapel Hill have resulted in the replacement of individualized local businesses with homogeneous national chains, a process that is eroding the uniqueness of our town. Chapel Hill needs to have a sound and stable fiscal base. Unfortunately that is not the case currently. The Town is far too dependent on residential property taxes that have not kept up with the services that the Town must provide. Thus a re-balancing of the Town's development pattern needs to take place. Chapel Hill has been described as an 'urban forest'. Certainly an esthetic based on natural beauty has traditionally been part of the development process in our town. However, this may be less true of some recent developments that seem out of scale and that disrespect the nature-based esthetic of Chapel Hill. Hopefully this trend can be reversed. In addition to these broad themes there are two aspects of planning that are of particular interest to me. The first is the complex intersection between transportation and development. New development increases the utilization of all forms of transport while improved transportation can facilitate development. Thus transportation planning and development planning obviously must go hand in hand. This is particularly important right now as we seem to be on the cusp of radical changes in transportation technology. It will be important for the Town to make the right choices as it enhances its transportation infrastructure to deal with new development. My second particular interest is the potential role of high technology businesses in altering economic patterns in Chapel Hill. Successful recruitment or retention of such businesses could ameliorate some of the Town's revenue problems. Clearly the Town and its boards and commissions have only limited tools for addressing these major problems. Nonetheless, it seems important to keep these issues in mind as various development projects are considered.

**Please provide a brief summary of any other relevant qualifications (skills, abilities, interests and/or experience) you bring.**

Summary of Relevant Background & Qualifications I have been involved with local civic activities for many years. This started with the Coker Hills Neighborhood Association (CHNA), an organization that I have been associated with for over two decades. At various times I have served as a member of the Association Board, its President, and currently as Vice-President. An important aspect of my work with the CHNA was the development of the Coker Hills Neighborhood Conservation District that was approved by the Town in 2008. There was considerable controversy during the NCD process and I believe that I was able to play a useful role as a mediator between various factions. In 2003 I ran for Chapel Hill Town Council. My platform at that time emphasized maintaining the quality of life in Chapel Hill including the protection of established neighborhoods. My recollection is that I came in 6th of 12 candidates with 4 seats open. I learned a great deal about Chapel Hill during my candidacy. I also learned that being a member of Council is a very demanding job. In retrospect it was a good thing that I failed to win a seat, since I was extremely busy with professional activities at that time. Between 2004 and 2009 I was a member of the Chapel Hill Transportation Board and served as its Chair for a period. This experience helped me understand the relationships between development and transportation issues. It also showed me both the positive features and the limitations of the Town's complex development application process that prevailed at that time. During the last two years I have been active with a civic organization called Chapel Hill Alliance for a Livable Town (CHALT). CHALT has advocated for changes in recent patterns of development in Chapel Hill. This includes increased emphasis on high quality commercial development and de-emphasis of expensive residential developments. While I agree with many elements of CHALT's policies, I differ on others, and I certainly do not see myself as representing CHALT in any way. Since 2017 I have been part of the Mayor's Entrepreneur's Round Table, a group whose goal is to promote entrepreneurial activity in Chapel Hill with particular emphasis on high-tech businesses. As a scientist and occasional biotech entrepreneur I have been quite interested in participating in this group. In May 2018 I was very pleased to take part in the search process for a new Town Manager. I served as a citizen-panelist in a process that involved the candidates demonstrating their prowess by participating in various mock exercises (e.g. leading a staff meeting). It was a very interesting experience. I recently retired from UNC and now have more time for civic activities. Thus I would very much appreciate the chance to serve on the Planning Commission.

## Demographics

In order to consider this application and provide some balance to the various boards, this personal information is required:

### Ethnicity

☒ Caucasian/Non-Hispanic

### Gender

☒ Male

If other, please describe:

**Please select your age from the following list. \***

☒ over 55

Are you a Town of Chapel Hill employee?

---

☐ Yes ☒ No

---

## Ethics Statement

### ETHICS GUIDELINES FOR TOWN ADVISORY BOARDS AND COMMISSIONS

---

Members of advisory boards and commissions shall not discuss, advocate, or vote on any matter in which they have a conflict of interest or an interest which reasonably might appear to be in conflict with the concept of fairness in dealing with public business. A conflict of interest or a potential conflict occurs if a member has a separate, private, or monetary interest, either direct or indirect, in any issue or transaction under consideration. In addition, members of the Historic District Commission and Board of Adjustment, when these boards are hearing cases, serve as quasi-judicial bodies. Pursuant to State Statute 106A-388(e)(2), members of these boards “shall not participate in or vote on any quasi-judicial matter in a manner that would violate affected persons’ constitutional rights to an impartial decision maker. Impermissible violations of due process include, but are not limited to, a member having a fixed opinion prior to hearing the matter that is not susceptible to change, undisclosed ex parte communications, a close familial, business, or other associational relationship with an affected person, or a financial interest in the outcome of the matter.”

Any member who violates these Ethics Guidelines may be subject to removal from the board or commission. If the advisory board or commission member believes he/she has a conflict of interest then that member should ask the advisory board or commission to be recused from voting. The advisory board or commission should then vote on the question on whether or not to excuse the member making the request. In cases where the individual member or the advisory board or commission establishes a conflict of interest, then the advisory board or commission member shall remove themselves from the voting area. Any advisory board or commission member may seek the counsel of the Town Attorney on questions regarding the interpretation of these ethics guidelines or other conflict of interest matters. The interpretation may include a recommendation on whether or not the advisory board or commission member should excuse himself/herself from voting. The advisory board or commission member may request the Town Attorney respond in writing.
