

**05-22-2019 Town Council Meeting**  
**Responses to Council Questions #2**

**ITEM #11: Receive the FY19 Third Quarter Affordable Housing Quarterly Report (January-March)**

**Council Question:** Would it be feasible (including minimal additional staff time) to add dollars leveraged as an indicator we track in the quarterly and annual reports? We do such a great job of that, it would be nice to have the data to share as part of telling the story of our affordable housing investments.

**Staff Response:** *Yes, it is feasible for staff to begin including dollars leveraged in the quarterly and/or annual reports. Staff is able to track this data at the time of project completion and include this information in our reporting.*
