

OPEN THE PUBLIC HEARING FOR CONDITIONAL ZONING AT COLUMBIA STREET ANNEX FROM RESIDENTIAL-2 (R-2) TO MIXED USE-VILLAGE-CONDITIONAL ZONING DISTRICT (MU-V-CZD)

STAFF REPORT

TOWN OF CHAPEL HILL PLANNING DEPARTMENT Judy Johnson, Operations Manager

Jake Lowman, Senior Planner

PROPERTY ADDRESS

DATE

APPLICANT

1150 S. Columbia Street

November 18, 2020

Wendi Ramsden, Coulter Jewell Thames

STAFF RECOMMENDATION

Staff recommends that the Council 1) open the public hearing 2) receive comment on the proposed Conditional Zoning Application, and 3) close the public hearing (Under the recently enacted legislation authorizing public hearings at remote meetings, public comment may continue to be submitted in the hearing record for 24 hours after the November 18, 2020 public hearing.)

That the Council then make a motion to schedule the proposed Zoning Atlas Amendment for possible decision on December 9, 2020.

ZONING

Current:

Residential-2 (R-2) (Approximately 4

acres)

Proposed: Mixed Use-Village-Conditional Zoning

District (MU-V-CZD)

PROCESS

Conditional Zoning is a legislative process. It allows the Council to review the rezoning application for consistency with the Land Use Plan in the Comprehensive Plan and establish standards that address any impacts on surrounding properties. If the proposed conditional zoning district is in a Low Residential Land Use Category, the Town Council must approve a Land Use Plan Amendment prior to proceeding.

The applicant has submitted a Land Use Plan Amendment for Council review, to update the site's designation to high-density residential.

PROJECT OVERVIEW

The Columbia Street Annex project is located at the northwest corner of S. Columbia Street and the westbound on-ramp of NC 54. The proposed development includes:

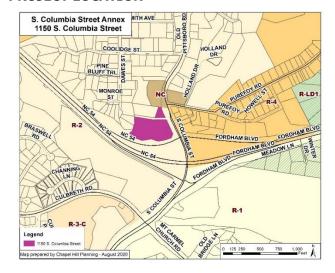

- a 6-story building set into the slope west of S. Columbia Street.
- up to 57,000 sq. ft. of residential floor area, for a maximum of 52 units including 8 affordable units (15%).
- a maximum of 4,000 sq. ft. of business/office
- a full-access driveway off S. Columbia Street with sidewalks and underground parking.

DECISION POINTS

The applicant is requesting the following modifications to regulations:

- Steep slope regulations
- Encroachment into the Resource Conservation District
- Reduced landscaping standards
- Mixed Use-Village land use mix standards

PROJECT LOCATION

ATTACHMENTS

- 1. Zoning Technical Report
- 2. Project Details Table
- 3. Land Use Plan Amendment Technical Report
- 4. Draft Staff Presentation
- 5. Resolution A (Resolution of Consistency)
- 6. Resolution B (Resolution Approving Land Use Plan Amendment)
- 7. Ordinance A (Enacting the Ordinance)
- 8. Resolution C (Denying the Application)
- 9. Advisory Board Recommendations
- 10. Applicant Materials (including Land Use Plan Amendment application materials)

PROJECT OVERVIEW

The application proposes a Mixed Use-Village-Conditional Zoning District (MU-V-CZD) in order to accommodate 52 residential dwelling units and approximately 4,000 square feet of commercial office space. The existing vacant site is located adjacent to NC 54 and S. Columbia Street. The Statement of Justification explains that the applicant is seeking a Conditional Zoning in order to develop the site to a greater intensity than what is allowed by the existing Residential-2 (R-2) zoning district. More details about the proposed development can be found in the applicant's narrative and Statement of Justification (Attachment 10).

Information about the site and proposed zoning district can be found below, as well as a list of proposed Modifications to Regulations, other important considerations that staff has identified, and an analysis of the project's consistency with the Comprehensive Plan and relevant Findings of Fact.

SITE CONTEXT

Staff have identified the following physical and regulatory characteristics of the land which are relevant to consideration of a Zoning Atlas Amendment:

- The site is adjacent to an area zoned Neighborhood Commercial (NC), which encompasses the parking lot to the north of the site and the Merritt's restaurant property on the other side of S. Columbia Street.
- Other property surrounding the site is zoned under a residential district, either Residential-2 (R-2) or Residential-4 (R-4).
- The elevation of the site drops considerably from S. Columbia Street to a stream running through the site. The applicant materials for the associated Conditional Zoning note topographical conditions would make it challenging to develop single-family homes on the site, as allowed under current zoning and suggested by the 2020 Land Use Plan designation.
- The applicant describes the location as a gateway into town, based on the prominence of S. Columbia Street and proximity to UNC's campus.
- The applicant's Statement of Justification also notes that because of the site's frontage on an interchange, "the site is not conducive to being developed for the single family home use for which it is zoned."

PROPOSED ZONING

The applicant proposes applying the Mixed Use-Village-Conditional Zoning District (MU-V-CZD) district in order to construct a proposed mixed use project with ground floor commercial and upper-story residences, as noted in the Statement of Justification: "The site is zoned Residential-2 (R-2) which permits only single family residential and duplexes, with a maximum FAR of 0.093."

Recent changes to the Land Use Management Ordinance allow Mixed Use-Village (MU-V) to be approved as a Conditional Zoning District. The conditions of the rezoning would become part of the site's zoning entitlement upon approval.

The Mixed Use-Village (MU-V-CZD) Zoning District can be characterized by the following standards:

- PURPOSE: Section 3.5.1 of the Land Use Management Ordinance states that "The
 mixed use districts are intended to provide for the coordinated development of office,
 commercial, and residential uses and their necessary support functions in the vicinity of
 key highway intersections and transit corridors in Chapel Hill. They are designed to
 facilitate stated public policies to encourage design which emphasizes lively, people
 oriented environments and compatible, visually interesting development."
- **USES:** Permitted uses for Mixed Use (MU) districts, as established in LUMO Table 3.7-1, include (but are not limited to) various types of retail, services and businesses; office; hotel/motel; single-family and multifamily residential; research activities; and public facilities. For the Mixed Use-Village (MU-V) district specifically, LUMO 3.5.1(b) further establishes that multiple uses must be either mixed horizontally with 25 percent floor area minimums for residential and nonresidential uses, or mixed vertically. The Conditional Zoning application proposes limiting uses to commercial, office, and multifamily residential. The existing Residential (R-2) zoning generally limits uses to single-family or two-family residential; or selected other uses include place of worship and schools.
- **DIMENSIONAL STANDARDS:** Established in LUMO Table 3.8-1 and differentiated between different road types for the site's frontage. The subject site fronts on arterial roads. Standards for Mixed Use-Village (MU-V) arterial include a maximum residential density of 20.0 units/acre, maximum building height of 70 (setback) to 114 (core) feet, minimum setbacks of 0 feet (except where a solar setback applies), and a maximum Floor Area Ratio of 1.2. The existing Residential-2 (R-2) zoning has substantially larger required setbacks, lower permitted heights, lower allowable density (4.0 units/acre), and lower allowable Floor Area Ratio (0.093). Based on the comparison of dimensional standards, the proposed rezoning would allow a significant increase in the amount of development potential for the site.
- **DESIGN AND DEVELOPMENT STANDARDS:** Most are established in LUMO Article 5, including environmental protection, and are the same for both the Mixed Use-Village (MU-V) and Residential-2 (R-2) districts. Parking is handled differently, with the Mixed Use-Village (MU-V) district requiring only 50 percent of the minimum parking ratios applied in other districts. Buffers are also not required internal to the district. The Mixed Use-Village (MU-V) district establishes additional development standards for: phasing plan review, outparcel design criteria, and bus stop provision.

The associated Conditional Zoning application provides an opportunity to establish a
narrower range of uses for the site, along with tailored dimensional standards and
development standards, to address potential impacts on surrounding properties in
support of a finding that the permitted development would maintain public health, safety
and welfare.

PROPOSED MODIFICATIONS TO REGULATIONS

1) Section 3.6.3 Resource Conservation District (RCD): The Land Use Management Ordinance (LUMO) limits uses, land disturbance, and impervious surface area to specific percentages of the total land area in different zones of the RCD. The applicant is requesting three modifications to the RCD standards:

Section 3.6.3(e) Permitted uses and activities in resource conservation district: The LUMO restricts uses within the stream side, managed use, and upland zones of the RCD. The applicant is requesting to place parking and building structure within the managed use and upland zones of the RCD.

Staff Comment: Staff believes that the Council could find a public purpose for the placement of the parking and building structure within the managed use and upland zones of the RCD. The site has limited buildable area outside the RCD as well as a large tree save west of the stream. The applicant is providing riparian buffer restoration and/or enhancement to improve the current poor stream conditions to mitigate impacts proposed within the RCD buffer.

Section 3.6.3(f) Dimensional regulations: The LUMO limits land disturbance and impervious surfaces to specific percentages of the total land area by the different zones of the RCD. The table below illustrates the LUMO standards and the applicant's requested land disturbance and impervious surfaces by the RCD zones.

RCD Zone	Total Area	Proposed Disturbance	LUMO standard	Proposed Impervious	LUMO standard
Streamside	35,935 sf	2,210 sf 6.2%	7,187 sf 20%	0 sf	3,594 sf (10%)
Managed	38,618 sf	23,100 sf 59.8%	15,447 sf 40%	5,380 sf 13.9%	7,724 sf 20%
Upland	34,668 sf	18,300 sf 52.8%	13,867 sf 40%	13,650 sf 39.4%	6,934 sf 20%

Staff Comment: Staff believes that the Council could find a public purpose for the increased land disturbance and impervious surfaces, as the project will minimize disturbance in the streamside zone, and the applicant has offered to provide riparian buffer restoration or enhancement to improve the current poor conditions of the stream and to mitigate impacts proposed within the RCD buffer, including areas of channel degradation to be restored.

2) Section 5.3.2 Steep slopes: The applicant is requesting a modification to LUMO Section 5.3.2 to exceed the maximum 25 percent disturbance of the areas with slopes exceeding 25 percent. The applicant is proposing to disturb 100 percent of the slopes greater than 25 percent. The area of slope to be disturbed in 9,541 sq. ft.

Staff Comment: Staff believes that the Council could find a public purpose for the steep slope disturbance as the development proposal is minimizing impacts in the RCD and preserving a significant portion of the site west of the stream.

3) Section 5.6 Landscaping, screening and buffering: The applicant is requesting a reduction of the width and plantings of the landscape buffer along South Columbia Street. The required buffer is a 30 foot Type 'D' buffer. The proposed buffer as will vary in width between zero and 30 feet with an average width of 12 feet. The modification also requests a 70 percent reduction in plant material from the required 23 canopy trees, 47 understory trees and 156 shrubs to 7 canopy trees, 15 understory trees, and 50 shrubs within the project site.

Staff Comment: Staff believes that the Council could find a public purpose for the increased reduced width and plantings as the application includes a pedestrian plaza at the street level to activate the street frontage.

4) Section 3.5.1 Mixed Use-Village: The applicant is requesting a modification to required use mix percentages in the Mixed Use-Village (MU-V) zoning district. The LUMO specifies that the Mixed Use-Village (MU-V) zoning district have a mix of at least 25 percent of the floor area devoted to residential uses and a minimum 25 percent of the floor area devoted to office/commercial uses. The applicant is requesting a modification to the minimum non-residential component to allow as little as 6 percent non-residential uses.

Staff Comment: Staff believes that the Council could find a public purpose for the reduction in the use intensities as the development is designed as a live/work space.

Council Findings and Public Purpose: The Council has the ability to modify the regulations according to Section 4.4.5 of the Land Use Management Ordinance. Staff believes that the Council could modify the regulations if it makes a finding in this particular case that public purposes are satisfied to an equivalent or greater degree. If the Council chooses to deny a request for modifications to regulations, the developer's alternative is to revise the proposal to comply with the regulations.

For additional information on the proposed modifications and other considerations on timing and flexibility, please refer to the applicant's attached materials.

CONSISTENCY WITH THE COMPREHENSIVE PLAN AND OTHER DOCUMENTS

Town staff has reviewed this application for compliance with the themes from the 2020 Comprehensive Plan¹, the standards of the Land Use Management Ordinance², and the Town of Chapel Hill, NC: Design Manual and Standard Details³ and believes the Columbia Street Annex proposal complies with several themes of the 2020 Comprehensive Plan:

Comprehensive Plan Themes: The following are themes from the 2020 Comprehensive Plan, adopted June 25, 2012:

¹ http://www.townofchapelhill.org/home/showdocument?id=15001

² https://www.municode.com/library/#!/nc/chapel hill/codes/code of ordinances?nodeId=CO APXALAUSMA

³ http://www.townofchapelhill.org/town-hall/departments-services/public-works/engineering/design-manual-and-standard-details

\boxtimes	P	Create a Place for Everyone	X		Develop Good Places, New Spaces
\boxtimes	9	Support Community Prosperity	X	M	Nurture Our Community
\boxtimes		Facilitate Getting Around	X	P	Grow Town and Gown Collaboration

Land Use Plan: The 2020 Land Use Plan⁴, a component of the 2020 Comprehensive Plan, designates this site for low density residential. The applicant has submitted an accompanying Land Use Plan Amendment application, requesting to designate the site as medium density residential.

Staff Evaluation: North Carolina General Statute Section 160A-383 requires the Council to approve a statement describing whether its action is consistent with an adopted comprehensive plan and any other applicable officially adopted plan when adopting or rejecting any zoning amendment.

Staff provides the following evaluation of this application's consistency with the 2020 Comprehensive Plan and other adopted plans:

- The intent of the Mixed Use-Village (MU-Village) district notes coordinated development
 of office, commercial, and residential uses and their necessary support functions, which
 is not consistent with the Low Residential designation on the 2020 Land Use Plan. The
 developer has submitted a concurrent Land Use Plan Amendment to address the
 inconsistency.
- Considering the Conditional Zoning application, there is a proposed residential focus for the project. This is somewhat more consistent with the Land Use Plan in terms of residential use, but is still inconsistent in intensity. The Low Residential designation supports a density of 1-4 units/acre. The Mixed Use-Village (MU-Village) arterial district allows up to 20 units/acre and the Conditional Zoning application proposes up to 13.3 units/acre.
- The applicant's Statement of Justification notes that the project design retains existing forest and is energy efficient in building design and orientation, furthering Comprehensive Plan goals for a green community.
- The Statement of Justification also notes that the site's proximity to the university campus would allow the proposed housing to serve students and staff, furthering Comprehensive Plan goals for town & gown collaboration.
- Finding #3 in the next section notes additional purposes of the 2020 Comprehensive Plan which may be achieved through this application.

KEY CONSIDERATIONS

<u>Planning Commission</u>: At the <u>October 20, 2020 meeting</u>, the Planning Commission recommended approval with the following modifications to Ordinance A:

Bicycle parking should be significantly increased on-site.

⁴ http://www.townofchapelhill.org/home/showdocument?id=1215

Staff Response: The applicant has provided the minimum number of bicycle parking on site.

• If we want people to use transit they need to able to reach it as safely and efficiently as possible, then the existing pedestrian crosswalk by the bus stop should be retained- the southern cross walk is the more direct route to current bus stop and likely location of future BRT stop.

Staff Response: The current crosswalk will be moved to construct the left turn lane into the site, per NCDOT and Town transportation staff. Staff recommends that a second crosswalk be installed at the NC 54 intersection with S. Columbia Street. The following stipulation is included in Ordinance A:

<u>Pedestrian Improvements</u>: Prior to ZCP approval, the developer must show plans for a pedestrian-activated signal with Rectangular Rapid Flashing Beacons for the crosswalk north of Purefoy Road on S. Columbia Street. The plans shall include ADA ramps aligned to serve the crosswalk location. The developer shall also provide a pedestrian crosswalk north of the 54 Bypass intersection with S. Columbia Street.

• This is a terrible intersection - having both a southern and northern crossing signals to cars that they should slow down

Staff Response: Staff recommends the applicant work with NCDOT for appropriate signage along S. Columbia Street

<u>Transportation and Connectivity Advisory Board</u>: At the <u>September 22, 2020 meeting</u>, the Transportation and Connectivity Advisory Board recommended denial, and asked that Council consider the following:

• 50 percent reduction of total parking spaces.

Staff Response: The MU-V district allows for a 50 percent reduction in the minimum number of parking spaces, and the developer has identified that they may reduce the parking further that what is projected currently.

• Dedicate transportation network company (TNC) parking spaces.

Staff Response: There are loading spaces at the back of the structure. Staff recommend that council consider this request.

• No Right on Red movements when the pedestrian signals are activated.

Staff Response: This request would need to be coordinated with NCDOT and Town public works staff.

 Install a crosswalk north of the S. Columbia Street and NC 54 Bypass intersection and install a crosswalk south of the S. Columbia Street and Purefoy Road intersection.

Staff Response: The following stipulation is included in Ordinance A:

<u>Pedestrian Improvements</u>: Prior to ZCP approval, the developer must show plans for a pedestrian-activated signal with Rectangular Rapid Flashing Beacons for the crosswalk north of Purefoy Road on S. Columbia Street. The plans shall include ADA ramps aligned to serve the crosswalk location. The developer shall also provide a pedestrian crosswalk north of the 54 Bypass intersection with S. Columbia Street.

 Coordinate with Town Staff on the NS BRT station location to ensure safe and convenient access for pedestrians.

Staff Response: A revised transportation impact analysis, to be completed prior to issuance of a Final Plan Zoning Compliance Permit, will include the NS BRT, and the developer must coordinate with Town Staff regarding the NS BRT

• Provide improved lighting at the crosswalks.

Staff Response: Staff recommend that council consider this item. Coordination with NCDOT will be required.

Provide a current traffic impact analysis study.

Staff Response: A Revised transportation impact analysis will be completed prior to issuance of a Final Plan Zoning Compliance Permit

Environmental Stewardship Advisory Board: At the <u>September 14, 2020 meeting</u>, the Environmental Stewardship Advisory Board recommended approval with the following modifications to Ordinance A:

 Request that the Stormwater Utility Advisory Board make recommendations on the applicant's proposal for stream restoration, including more details about flora and fauna

Staff Response: The Council has not required the applicant to present to the Stormwater Utility Advisory Board, and the applicant has not volunteered to attend at this time.

• A traffic study with particular attention to carbon impacts from vehicle idling, as well as commuter traffic and congestion

Staff Response: A new transportation impact analysis will be developed prior to issuance of a Final Plan Zoning Compliance Permit. A typical transportation impact analysis would not include an evaluation of these environmental impacts. Staff recommends council consider the specifics of this request.

 Because an all-electric building is proposed, strong consideration must be given to installing a rooftop solar PV system

Staff Response: Staff recommend that Council consider the request, with applicant's acceptance of any requested changes.

 Comply with the Transportation and Connectivity Advisory Board's recommended guidance for EV stations

Staff Response: Staff recommend that Council consider the request, with applicant's acceptance of any requested changes. Transportation and Connectivity Advisory Board's

recommends at least 3% of all parking should provide EV stations and 20% of all total parking spaces should be made "EV Ready" which includes the dedicated installation of electrical circuits and underground conduit.

Housing Advisory Board: At the <u>September 8, 2020 meeting</u>, the Housing Advisory Board recommended approval with the following modifications to Ordinance A:

• That the applicant reach out to the Community Home Trust to confirm that its affordable housing plan aligns with their current and projected housing needs.

Staff Response: The applicant consulted with the Community Home Trust and we have received the following response from Kimberly Sanchez, Executive Director: "Developer Roland Gammon has shared his plans for the Columbia Street Annex with Community Home Trust. We have reviewed his plans and designs. We understand he has proposed to provide eight total units of his total 52 units in the building as Affordable--four at 65% AMI and four at 80% AMI. This satisfies the 15% TOCH Inclusionary Housing Ordinance. Of the eight, four would be 1BR of ~576 SF and four would be 2BR of ~864 SF. The eight units would be spread among floors 1-3 of the building.

Mr. Gammon has agreed that he is further willing to establish the HOA dues for the eight affordable units at a reduced rate relative to all other units. We have shared language that has been used successfully in other projects in Town that provides for enduring protection for the affordability of assessments. He has also agreed to establishing a Town Mandated Transfer Fee in the ownership documents. To achieve these goals, he has agreed that he would work with the CHT team to determine (1) final unit pricing of the affordable units (2) reduced and affordable monthly HOA dues and (3) an appropriate Town Mandated Transfer Fee for the project.

We have experienced good demand for the types of units suggested as affordable and consider their proposed distribution within the building a sensible plan and are supportive of the project..."

FINDINGS OF FACT

In order to establish and maintain sound, stable, and desirable development within the planning jurisdiction of the Town, it is intended that the Land Use Management Ordinance (as stated in Section 4.4) shall not be amended except:

- **A.** To correct a manifest error in the chapter; or
- **B.** Because of changed or changing conditions in a particular area or in the jurisdiction generally; or
- **C.** To achieve the purposes of the Comprehensive Plan.

Staff provides below an evaluation of this application based on the three findings. Further information may be presented for the Council's consideration as part of the public hearing process. All information submitted at the public hearing will be included in the record of the hearing.

Finding #1: The proposed zoning amendment is necessary to correct a manifest error.

Arguments in	To date, no arguments in support have been submitted or identified by
Support	staff.

Arguments in	To date, no arguments in opposition have been submitted or identified
Opposition	by staff.

Staff Response: We believe, based on the information entered into the record to date, that there is no manifest error in the Town's Zoning Atlas Amendment related to the project site.

Finding #2: The proposed zoning amendment is necessary because of changed or changing conditions in a particular area or in the jurisdiction generally.

Arguments in Support	Staff notes that the site is located at the intersection of two arterial roads and at a prominent gateway into Chapel Hill that could be considered a place where more intense development activity is appropriate. Transportation infrastructure that has been added to Columbia St, including sidewalks, bike lanes, and bus routes, could support more intense use.
	Staff also notes that while the proposed intensity exhibits inconsistency with the Comprehensive Plan, this site is part of a gateway area identified for study through the Town of Chapel Hill's Future Land Use Map update that is currently underway. This effort may result in a revised land use designation and/or identify additional changing conditions for the area. The current draft of the Future Land Use Map proposes character types that include Multifamily, shops and offices.
Arguments in Opposition	To date, no arguments in opposition have been submitted or identified by staff.

Staff Response: We believe, based on the information entered into the record to date, that the Council could make the finding that the proposed zoning amendment is necessary because of changing conditions in the S Columbia Gateway Focus Area.

Finding #3: The proposed zoning amendment is necessary to achieve the purposes of the comprehensive plan.

Arguments in Support	The applicant's Statement of Justification states that the proposed development would contribute to the following elements of the Comprehensive Plan:
	 A range of housing options for current and future residents (Goal-Place for Everyone.3) Balance and sustain finances by increasing revenues and decreasing expenses (Goal-Community Prosperity and Engagement.1) Promote a safe, vibrant, and connected (physical and person) community (Goal-Community Prosperity and Engagement.3) A connected community that links neighborhoods, businesses, and schools through the provision of greenways, sidewalks, bike facilities, and public transportation (Goal-Getting Around.2) Make an adaptable transportation system to support both dense and suburban development (Goal-Getting Around.4)
	 A community that has a parking system based on strategies that support the overall goals of a holistic transportation system (Goal-Getting Around.8) Low density, green Rural Buffers that exclude urban development and minimize sprawl (Goal-Good Places, New Spaces.1)

	 A vibrant, diverse, pedestrian-friendly, and accessible downtown with opportunities for growing office, retail, residential, and cultural development and activity (Goal-Good Places, New Spaces.2) A community that welcomes and supports change and creativity (Goal-Good Places, New Spaces.6) Future land use, form, and density that strengthen the community, social equity, economic prosperity, and natural environment (Goal-Good Places, New Spaces.8) Maintain and improve air quality and water quality, and manage stormwater to heal local waterways and conserve biological ecosystems within the town boundaries (Goal-Nurturing Our Community.2) Protect, acquire, and maintain natural/undeveloped open spaces and historic sites in order to protect wildlife corridors, provide recreation, and ensure safe pedestrian and bicycle connections. These spaces could include, among other things, Significant Natural Heritage Areas (SNHA) lands adjacent to and connecting various properties such as riparian lands, etc. (Goal-Nurturing Our Community.3) Reduce the carbon footprint of all Town-owned or managed services and properties; require that all new development meets standards; and support residents in minimizing their personal footprints (Goal-Nurturing Our Community.7) Protect neighborhoods from the impact of development such as stormwater runoff, light and noise pollution, and traffic (Goal-Nurturing Our Community.8) Promote access for all residents to health-care centers, public services, and active lifestyle opportunities (Goal-Town and Gown Collaboration.6)
Arguments in Opposition	To date, no arguments in opposition have been submitted or identified by staff.

Staff Response: We believe, based on the information entered into the record to date, that the Council could make the finding that the proposed zoning amendment is necessary to achieve the purposes of the Comprehensive Plan.

Overview

Site Description					
Project Name	Columbia Street Annex				
Address	1150 S. Columbia Street				
Property Description	Approximately 4 Acres at the intersection of South Columbia and NC-54

ZONING AMENDMENT APPLICATION ANALYSIS: COLUMBIA STREET ANNEX

The following Technical Report provides a staff analysis of the Zoning Atlas Amendment application based on long-range planning considerations, identifying arguments in favor and arguments opposed. The application would effect a change to the current zoning and permitted types and intensities of land uses.

PROPERTY ADDRESS	APPLICANT
1150 S Columbia St	Wendi Ramsden, Coulter Jewell Thames PA
CURRENT ZONING DISTRICT Residential-2 (R-2)	PROPOSED ZONING DISTRICT Mixed Use-Village-Conditional Zoning District (MU-V-CZD)
2020 LAND USE PLAN DESIGNATION Low Residential, 1-4 unit/acre	2020 FUTURE FOCUS AREA None

OTHER APPLICABLE ADOPTED PLANS

None identified

SUMMARY OF ARGUMENTS IN FAVOR

- While the proposed zoning allows more intense development, the concurrent Conditional Zoning
 process provides an opportunity to limit intensity and to establish standards that address any
 impacts on surrounding properties
- Topographical challenges may make it difficult to develop the uses allowed under current zoning
- Frontage on an interchange may make it difficult to develop the uses allowed under current zoning
- Project design would further Comprehensive Plan goals for environmental stewardship
- Based on proximity to university, proposed housing would further Comprehensive Plan goals for town and gown collaboration
- The site is located at the intersection of two arterial roads which are considered a gateway
- Transportation infrastructure along Columbia St. could support more intense use

SUMMARY OF ARGUMENTS OPPOSED

- The proposed district allows significantly more intensity for the site compared to existing zoning
- A Land Use Plan Amendment is needed prior to consideration of a rezoning. The higher intensity
 allowed under the proposed district is inconsistent with the 2020 Land Use Plan designation for Low
 Density. The uses allowed under the proposed district are not entirely consistent with the 2020
 Land Use Plan designation (proposed residential is consistent, but not proposed commercial)
