Section C: Land Area

Date lot was originally created			November 1954		
Net Land Area (NLA): Area within zoning lot boundaries		NLA=	5,490	sq. ft.	
Choose one, or both, of the following (a or b,) not	a) Credited Street Area (total adjacent frontage) x ½ width of public right-of-way	CSA=	549	sq. ft.	
to exceed 10% of NLA	b) Credited Permanent Open Space (total adjacent frontage) x $\frac{1}{2}$ public or dedicated open space	COS=		sq. ft.	
TOTAL: NLA + CSA and/or COS = Gross Land Area (not to exceed NLA + 10%)			6039	sq. ft.	

Special Protection A	Areas: (check all those that apply) Resource Conservation District	100 Year Floodplain	☐ Watershee	d Protection District
Land Disturbance				Total (sq ft)
Area of Land Disturmaterials, access/equ	Already Graded			
Area of Land Distur	None			
Area of Land Distur	bance within Jordan Buffer			None

Impervious Area	Existing (sq ft)	Demolition (sq ft)	Proposed (sq ft)	Total (sq ft)
Impervious Surface Area (ISA)	0	1250 plus D/W	1,372	1,372
Impervious Surface Ratio: Percent Impervious				
Surface Area of Gross Land Area (ISA/GLA) %	0	0.265	0.227	0.227
If located in Watershed Protection District, % of				
impervious surface on 7/1/1993				

Section E: Dimensions

	Dimensional Requirements	Required by Ordinance	Existing	Proposed
	Street	24	NA	31.8
Setbacks (minimum)	Interior (neighboring property lines)	8	NA	8.5
	Solar (northern property line)	NA	NA	NA
Height (maximum)		Unk	NA	17 ft
Front Yard Parking			NA	One or Two sere
		<u>.</u>	•	── └─One or Two cars ─

Submittal Requirements					
1. Application fee (Refer to fee schedule) Please note that the RCD fee is higher 2. Recorded plat or deed verifying property current ownership EXIS B. Public Water/Sewer Confirmation – from OWASA or Orange County Health Department approval 4. Recorded Plat of easements, right-of-way, and dedications, if applicable 5. Building Elevation (label building height from top of roof to mean natural grade line) 6. Statement of Compliance with Design Guidelines (attached) – Written response to each point in guidelines 7. Floor Plan – compliance with bedroom/bathroom ratio X 8. Front Yard Parking – compliance with allowable percentage					guidelines
y 9. Digital Files – provide dig	-	-		-	
10. Mailing List of Property (e proposed	
	11. Number of addresses on mailing list Mailing fee				at (010) 069 2729
	12. RCD, Jordan Buffer, Floodplains, & Wetland determination - please contact Planning Department at (919) 968-2728				
	Resource Conservation District Encroachment Exemption or Variance (determined by Planning) Jordan Buffer Notice of Exemption, Authorization Certificate or Mitigation Plan Approval (determined by Planning)				
	Erosion Control Permit (Orange County, or State only if land disturbance greater than 20,000 sq ft)				
	Statement of Compliance with Comprehensive Plan – 12 themes				
	17. Digital photos of site and surrounding properties				
	X 18. Reduced Site Plan Set (reduced to 8.5"x11")				
Revised 01.31.12	Page 3 of 6				

SUBMITTAL REQUIREMENTS TOWN OF CHAPEL HILL Planning Department

Existing Conditions Plan

- a) Location of all existing structures and setbacks
- b) Property lines and right-of-way lines
- c) Location of Resource Conservation District (RCD), Jordan Buffer, Floodplain, and Wetlands
- d) Stream determination, if not done within past 5 years

Detailed Site Plan (5 copies)

- a) Existing and proposed structures, driveways, sidewalks, impervious surface, and stormwater
- b) Indicate location of water, sewer, electric, cable, telephone, and gas lines
- c) Area of land disturbance (include grading, construction, staging, utility lines, access areas, and stormwater facilities
- d) Proposed utility lines, fences
- e) Existing roads (public & private), rights-of-way, sidewalks, driveways, vehicular parking areas, bicycle parking, handicapped parking, street names.

Steep Slope Plan (classifying slopes 0-10%, 10-15%, 15-25%, 25% and greater if lot created after 1/27/03)

Landscape Protection Plan (3 copies) for lots with greater than 5,000 square feet of land disturbance

- a) Tree survey (trees greater than 18" diameter at 4 feet in height)
- b) Rare and specimen tree critical root zones
- c) Rare and specimen trees proposed to be removed
- d) Proposed tree protection/silt fence location
- e) Pre-construction/demolition conference notes
- f) Existing and proposed tree canopy calculations, if applicable

Land Disturbance within the Resource Conservation District (or Encroachment Exemption approval)

- a) Utilities Plan;
- b) Grading Plan showing existing and final contours;
- c) Sedimentation and Erosion Control Plan;
- d) Stormwater Management Plan;
- e) Soils Analysis;
- f) Plan view including topography of the site; location of streams, watercourses, stormwater runoff channels; floodway and floodplain; existing or proposed storm and sanitary sewers and sewer outfalls; septic tanks systems; existing and proposed structures; the 100-year flood and RCD elevations and limits; and existing and proposed tree lines;
- g) Profile view including elevations of the watercourse beds; waterway openings of existing and proposed culverts and bridges within or near the site; size and elevation of existing or proposed sewer and drain outlets; 100-year water surface elevations and limits; and elevations of the RCD;
- h) Description of existing vegetation, including significant trees and shrubs; and a landscape plan;
- i) Description of wildlife habitats;
- j) Description of proposed storage of materials and of waste disposal facilities;
- k) Certificate from a registered professional engineer or architect with respect to floodproofing;
- Copies of notifications to and responses by adjacent communities, the North Carolina Department of Crime Control, and Public Safety, and the Federal Emergency Management Agency, regarding any proposed alteration or relocation of a riverine watercourse;
- m) The increase in elevation of the 100-year flood upstream from the development, velocity changes and rate of rise changes, runoff, water quality change, sediment deposit rate changes, and duration of flood:
- n) A list of owners of properties located within five hundred (500) feet of the subject property boundaries with the full name and address of each property owner, with stamped, pre-addressed mailing

TOWN OF

SUBMITTAL REQUIREMENTS TOWN OF CHAPEL HILL Planning Department

envelopes for each owner on the mailing list.

For lots created prior to January 27, 2003 and greater than 5,000 square feet of land disturbance, the stormwater plans must control for stormwater rate and quality. For lots created after January 27, 2003, with any amount of land disturbance, the plan must control for stormwater rate, quality, and volume.

Stormwater Management Plan (2 copies)

- a) Topography (2-foot contours)
- b) Existing drainage conditions
- c) Proposed drainage and stormwater conditions
- d) Drainage conveyance system (piping)
- e) Roof drains
- f) Easements
- g) BMP plans, dimensions, details, and cross-sections
- h) Planting and stabilization plans and specifications

Stormwater Management Report (2 copies)

- a) Written narrative describing existing & proposed conditions, anticipated stormwater impacts and management structures and strategies to mitigate impacts
- b) Description of land uses and area (in square footage)
- c) Impervious surface area
- d) Ground cover
- e) Soil Information (classification, infiltration rates, depth to groundwater and bedrock)
- f) Time of concentration calculations and assumptions
- g) Topography (2-foot contours)
- h) Pertinent on-site and off-site drainage conditions
- i) Upstream and/or downstream volumes
- i) Discharges and velocities
- k) Drainage areas and sub-areas delineated
- 1) Backwater elevations and effects on existing drainage conveyance facilities
- m) Location of jurisdictional wetlands and regulatory FEMA Special Flood Hazard Areas
- n) Water quality volume calculations
- o) RCD delineation and boundary (perennial & intermittent streams, post-development with mitigation
- p) Hydrographs for pre-& post-development without mitigation, post-development with mitigation
- q) Peak discharge calculations and rates (1, 2, and 25-year storms)
- r) Volume calculations and documentation of retention for 2-year storm
- s) 85% TTS for post-development stormwater run-off
- t) Nutrient loading calculations
- u) BMP sizing calculations
- v) Pipe sizing calculations and schedule (including HGL & EGL calculations and profiles)
