Update on Coal Ash Remediation at Police Station Property.

Staff/Consultant:

Vencelin Harris, Emergency Management Coordinator
John Richardson, Community Resilience Officer
Steve Hart, Principal Hydrogeologist, Hart & Hickman

Department:

Fire
Manager's Office
Consultant

Overview: This memorandum summarizes background and options for remediating the coal combustion products (CCPs) at the 828 Martin Luther King Jr. Blvd. property.

Decision Points:

- Whether to Apply for Brownfields eligibility determination (non-binding)
Options for next steps for public information and feedback
When to return to Council

★ Recommendation(s):

That the Council authorize the Manager to:

- Apply for a Brownfields eligibility determination (non-binding) through the North Carolina Department of Environmental Quality (NC DEQ);
Hold three additional public meetings, each dedicated to one of the following: a public information meeting about environmental conditions and remediation; a public information meeting about

- redevelopment scenarios; and a meeting of the Environmental Stewardship Advisory Board; and
3. Return to Council, once a Letter of Eligibility (LOE) has been issued by NC DEQ, to share updates about the public meetings and ask the Council to decide whether to proceed with negotiating a Brownfields agreement or to determine an alternate path.
