Bicycle and Pedestrian Transportation - From Idea to Project.

Staff:

Judy Johnson, Interim Director
Bergen Watterson, Transportation Planning Manager

Department:

Planning

Overview: Council members and members of the public recently asked questions about specific bicycle and pedestrian projects and about the funding and process for implementing them. Tonight's presentation includes:

- status updates for current bike and pedestrian projects,
- information about funding and the process for implementing these projects, and
- explanation of the Franklin Street lane reallocation project, as referenced in the Chapel Hill Downtown Partnership's recent petition to Council.

Recommendation(s):

That the Council receive information on bicycle and pedestrian transportation projects.

Context:

- 'Making it easier to walk, bike, or take transit' was the top priority among FLUM survey respondents.
- Town Council Connected Community Strategic Goal strives to create a bike-pedestrian friendly community.
- The Town Council adopted the Mobility and Connectivity Plan in October 2017, including over \$40 million in proposed bike and pedestrian infrastructure projects.
- Funding for bike-pedestrian projects is limited.

Attachments:

- Draft Staff Presentation
- Staff Memorandum
- Attachment A: Current Bike-Ped Projects
- Attachment B: Bond Funded Projects
- Attachment C: Project Funding Flow Chart

The Agenda will reflect the text below and/or the motion text will be used during the meeting.

PRESENTER: Bergen Watterson, Transportation Planning Manager

The purpose of this item is for Council to receive information on bicycle and pedestrian transportation projects.
