**Consider Authorizing a Cost of Land Uses Fiscal Impact Analysis.**

**Staff:**

Dwight Bassett, Director

**Department:**

Economic Development & Parking Services

**Overview:** There has been much discussion about the impact of development in our community. We completed a similar study in 2011, and there has been a conversation about updating that work in recent years. This proposal is to initiate a new fiscal impact on land use by development type.

☆ **Recommendation(s):**

That the Council considers authorizing a Cost of Land Uses Fiscal Impact analysis and enacts the attached budget ordinance appropriating FY 2022 excess fund balance for the study.

**Decision Points**

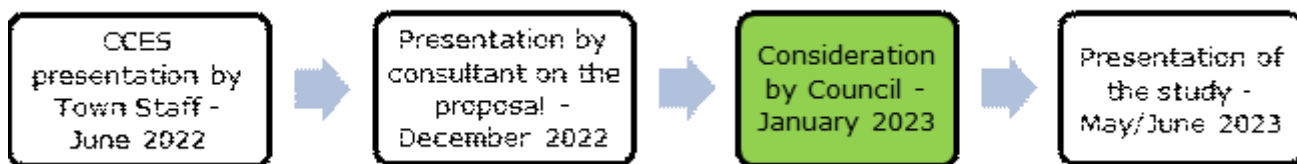

- This study would provide an update on the impacts on development types.
- The study could provide insight into budgetary needs as the Town continues to grow

**Key Issues:**

- A more vital understanding of the fiscal impacts of different land use types.
- A better understanding of development on the Town’s budget.

**Fiscal Impact/Resources:** Adopting the resolution would authorize the town to proceed with the cost of land uses fiscal impact analysis with an estimated cost is \$70,000. Staff recommends using FY 2022 excess fund balance for the study.
